Analog Devices Announces Financial Results for the Third Quarter of Fiscal Year 2010

NORWOOD, Mass.--(BUSINESS WIRE)--August 17, 2010--Analog Devices, Inc. (NYSE: ADI)

- 3Q10 revenue increased to \$720 million
- 3Q10 diluted EPS increased to \$0.65
- 3Q10 gross margin increased to 66.7% of revenue
- 3Q10 operating margin increased to 34.9% of revenue
- Board of Directors declared quarterly dividend of \$0.22 per share
- Financial results and 4Q10 outlook will be discussed via conference call today at 5:00 pm

Analog Devices, Inc. (NYSE: ADI), a global leader in high-performance semiconductors for signal processing applications, today announced financial results for the third quarter of its 2010 fiscal year, which ended July 31, 2010.

"ADI had a strong third quarter, delivering sequential sales growth of 8% with the largest increases occurring in the industrial and communications infrastructure markets," said Jerald G. Fishman, President and CEO. "Notably, it was an exceptional quarter in terms of profitability as we increased gross margin to 66.7%, increased operating margin to 34.9%, and grew EPS to \$0.65. Our continued profitability gains are the result of strong revenue growth coupled with a fundamentally improved cost structure."

Results of Operations for the Third Quarter of Fiscal 2010

- **Revenue** was \$720 million, an increase of 8% from the immediately prior quarter and an increase of 46% from the same period one year ago. For more information regarding revenue by end market and product type for the third quarter of fiscal 2010, please see Schedules D and E of this document. In addition, a more complete table covering prior periods is available on the Analog Devices Investor Relations website at: investor.analog.com.
- **Gross margin** was 66.7% of revenue, compared to 65.0% of revenue in the immediately prior quarter, and 54.1% of revenue in the year-ago period. Gross margin improvements were primarily due to lower manufacturing costs, increased factory utilization, and strong sales of products sold to industrial and communications infrastructure customers.
- **Operating expenses** were \$229 million, compared to \$220 million in the immediately prior quarter, and \$187 million in the same period a year ago.
- **Operating income** was \$251 million, or 34.9% of revenue, compared to \$214 million, or 32.0% of revenue, in the immediately prior quarter, and \$79 million, or 16% of revenue, in the same period one year ago.
- **Diluted earnings per share (EPS)** was \$0.65, compared to \$0.55 in the immediately prior quarter, and \$0.22 in the same period a year ago.
- **The Board of Directors declared a cash dividend** of \$0.22 per outstanding share of common stock, which will be paid on September 15, 2010 to all shareholders of record at the close of business on August 27, 2010.
- **Net cash provided by operating activities** was \$225 million, or 31% of revenue. Capital expenditures were \$39 million, and cash dividends of \$66 million were paid during the third quarter of fiscal 2010.
- **Cash and short-term investments** at the end of the third quarter of fiscal 2010 totaled approximately \$2.5 billion, compared to \$2.4 billion at the end of the second quarter of fiscal 2010.
- **Accounts receivable** in the third quarter of fiscal 2010, as measured by **days sales outstanding,** was 45 days, consistent with the immediately prior quarter.
- **Inventory** at the end of the third quarter of fiscal 2010 increased by approximately \$18 million, or 7%, compared to the immediately prior quarter.

Outlook for the Fourth Quarter of Fiscal 2010

The following statements are based on current expectations. These statements are forward- looking and actual results may differ materially, including as a result of the important factors discussed at the end of this release. These statements supersede all prior statements regarding business outlook set forth in prior ADI news releases.

Regarding the outlook for the fourth quarter of fiscal 2010, Mr. Fishman stated, "Looking ahead to the fourth quarter, given our higher opening backlog, we are expecting continued revenue growth. We anticipate that revenue will be in the range of \$740 million to \$770 million for the fourth quarter. We are planning for our gross margin to be 66% to 67% of sales. We expect that operating expenses will grow, but well below revenue growth. As a result, we anticipate that our operating margin will be in the range of 35% to 36% of sales and earnings per share will be in the range of \$0.68 to \$0.72."

Conference Call Scheduled for 5:00 pm ET

Mr. Fishman will discuss the third quarter results and short-term outlook via webcast, accessible at investor.analog.com, today, beginning at 5:00 pm ET. Investors who prefer to join by telephone may call 706-634-7193 ten minutes before the call begins and provide the password "ADI."

A replay will be available almost immediately after the call. The replay may be accessed for up to one week by dialing 800-642-1687 (replay only) and providing the conference ID: 80933163, or by visiting investor.analog.com.

Schedule D

Revenue Trends by End Market

The categorization of revenue by end market is determined using a variety of data points including the technical characteristics of the product, the "sold to" customer information, the "ship to" customer information and the end customer product or application into which our product will be incorporated. As data systems for capturing and tracking this data evolve and improve, the categorization of products by end market can vary over time. When this occurs we reclassify revenue by end market for prior periods. Such reclassifications typically do not materially change the sizing of, or the underlying trends of results within, each end market.

Schedule E Revenue Trends by Product Type

Revenue Trends by Product Type

The categorization of our products into broad categories is based on the characteristics of the individual products, the specification of the products and in some cases the specific uses that certain products have within applications. The categorization of products into categories is therefore subject to judgment in some cases and can vary over time. In instances where products move between product categories we reclassify the amounts in the product categories for all prior periods. Such reclassifications typically do not materially change the sizing of, or the underlying trends of results within, each product category.
