ANALOG DEVICES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND NINE MONTHS ENDED AUGUST 3, 2024 (UNAUDITED)
(all tabular amounts in thousands except per share amounts and percentages)

Note 1 – Basis of Presentation

In the opinion of management, the information furnished in the accompanying condensed consolidated financial statements reflects all normal recurring adjustments that are necessary to fairly state the results for these interim periods and should be read in conjunction with Analog Devices, Inc.'s (the Company) Annual Report on Form 10-K for the fiscal year ended October 28, 2023 (fiscal 2023) and related notes. The results of operations for the interim periods shown in this report are not necessarily indicative of the results that may be expected for the fiscal year ending November 2, 2024 (fiscal 2024) or any future period.

The Company has a 52-53 week fiscal year that ends on the Saturday closest to the last day in October. Fiscal 2024 is a 53-week fiscal year and fiscal 2023 was a 52-week fiscal year. The additional week in fiscal 2024 was included in the first quarter ended February 3, 2024. Therefore, the first nine months of fiscal 2024 included an additional week of operations as compared to the first nine months of fiscal 2023.

Note 2 – Shareholders' Equity

As of August 3, 2024, the Company had repurchased a total of approximately 207.4 million shares of its common stock for approximately \$14.9 billion under the Company's share repurchase program. As of August 3, 2024, an additional \$1.7 billion remains available for repurchase of shares under the current authorized program. The Company also repurchases shares in settlement of employee tax withholding obligations due upon the vesting of restricted stock units/awards or the exercise of stock options as well as for the Company's employee stock purchase plan. Future repurchases of common stock will be dependent upon the Company's financial position, results of operations, outlook, liquidity and other factors deemed relevant by the Company.

Note 6 – Commitments and Contingencies

On March 17, 2022, Walter E. Ryan and Ryan Asset Management, LLC, purported stockholders of Maxim Integrated Products, Inc. (Maxim), filed a putative class action in the Court of Chancery of the State of Delaware (C.A. No. 2022—0255) against the Company and the former directors of Maxim. The complaint alleged breaches of fiduciary duties by the individual defendants in connection with Maxim's agreement, as part of the merger negotiations with the Company, to suspend Maxim dividends for up to four quarters prior to the closing of the Company's acquisition of Maxim. The complaint further alleged that the Company aided and abetted those alleged breaches of fiduciary duties. The plaintiffs sought damages in an amount to be determined at trial, plaintiffs' costs and disbursements, including reasonable attorneys' and experts' fees, costs and other expenses. On May 2, 2023, the Court of Chancery entered an order dismissing the action in its entirety and with prejudice. On May 9, 2023, the plaintiffs filed a Motion for Reargument, which the Court of Chancery denied on May 30, 2023. On June 21, 2023, the plaintiffs filed a Notice of Appeal to the Delaware Supreme Court. On February 26, 2024, the Delaware Supreme Court issued an order affirming the dismissal of the action.

Note 7 – Revenue

Revenue Trends by End Market

The following tables summarize revenue by end market. The categorization of revenue by end market is determined using a variety of data points including the technical characteristics of the product, the "sold to" customer information, the "ship to" customer information and the end customer product or application into which the Company's product will be incorporated. As data systems for capturing and tracking this data and the Company's methodology evolves and improves, the categorization of products by end market can vary over time. When this occurs, the Company reclassifies revenue by end market for prior periods. Such reclassifications typically do not materially change the sizing of, or the underlying trends of results within, each end market.

Revenue by Sales Channel

The following tables summarize revenue by channel. The Company sells its products globally through a direct sales force, third party distributors, independent sales representatives and via its website. Distributors are customers that buy products with the intention of reselling them. Direct customers are non-distributor customers and consist primarily of original equipment manufacturers. Other customers include the U.S. government, government prime contractors and certain commercial customers for which revenue is recorded over time.

Assets and Liabilities Not Recorded at Fair Value on a Recurring Basis

The table below presents the estimated fair values of certain financial instruments not recorded at fair value on a recurring basis. Senior Notes Offering. On April 3, 2024, in an underwritten public offering, the Company issued \$550.0 million aggregate principal amount of 5.050% senior notes due April 1, 2034 (the 2034 Notes) with semi-annual fixed interest payments due on April 1 and October 1 of each year, commencing October 1, 2024. The net proceeds of the offering were \$545.5 million, after discounts and issuance costs. Prior to January 1, 2034 (three months prior to the maturity date of the 2034 Notes), the Company may, at its option, redeem the 2034 Notes, in whole or in part, at any time and from time to time, at a redemption price equal to the greater of: (1) (a) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the redemption date (assuming the 2034 Notes matured on January 1, 2034) on a semi-annual basis at the applicable treasury rate plus 15 basis points less (b) interest accrued to the date of redemption, and (2) 100% of the principal amount of the 2034 Notes to be redeemed, plus, in either case, accrued and unpaid interest thereon to the redemption date. On or after January 1, 2034, the Company may, at its option, redeem the 2034 Notes, in whole or in part, at any time and

from time to time, at a redemption price equal to 100% of the principal amount of the 2034 Notes being redeemed plus accrued and unpaid interest thereon to the redemption date. The 2034 Notes are unsecured and rank equally in right of payment with all of the Company's other existing and future unsecured senior indebtedness.

On April 3, 2024, in an underwritten public offering, the Company issued \$550.0 million aggregate principal amount of 5.300% senior notes due April 1, 2054 (the 2054 Notes) with semi-annual fixed interest payments due on April 1 and October 1 of each year, commencing October 1, 2024. The net proceeds of the offering were \$542.3 million, after discounts and issuance costs. Prior to October 1, 2053 (six months prior to the maturity date of the 2054 Notes), the Company may, at its option, redeem the 2054 Notes, in whole or in part, at any time and from time to time, at a redemption price equal to the greater of: (1) (a) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the redemption date (assuming the 2054 Notes matured on October 1, 2053) on a semi-annual basis at the applicable treasury rate plus 15 basis points less (b) interest accrued to the date of redemption, and (2) 100% of the principal amount of the 2054 Notes to be redeemed, plus, in either case, accrued and unpaid interest thereon to the redemption date. On or after October 1, 2053, the Company may, at its option, redeem the 2054 Notes, in whole or in part, at any time and from time to time, at a redemption price equal to 100% of the principal amount of the 2054 Notes being redeemed plus accrued and unpaid interest thereon to the redemption date. The 2054 Notes are unsecured and rank equally in right of payment with all of the Company's other existing and future unsecured senior indebtedness.

The 2034 Notes and the 2054 Notes were issued pursuant to a base indenture between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee, as supplemented by a supplemental indenture, which contains certain covenants, events of default and other customary provisions. The covenants applicable to the 2034 Notes and the 2054 Notes limit the Company's ability to incur, create, assume or guarantee any debt secured by a lien upon a principal property; enter into sale and lease-back transactions with respect to a principal property; and consolidate with or merge into, or transfer or lease all or substantially all of its assets to, any other party. As of August 3, 2024, the Company was in compliance with these covenants.

Note 12 – Income Taxes

The Company's effective tax rates for the three- and nine-month periods ended August 3, 2024 and July 29, 2023 were below the U.S. statutory tax rate of 21.0%, due to lower statutory tax rates applicable to the Company's operations in the foreign jurisdictions in which it earns income. The Company's effective tax rate also includes the effects of the mandatory capitalization and amortization of research and development expenses which began in fiscal 2023 under the Tax Cuts and Jobs Act of 2017. The mandatory capitalization requirement decreases the Company's effective tax rate primarily by increasing the foreign-derived intangible income deduction.

It is reasonably possible that the balance of gross unrealized tax benefits, including accrued interest and penalties, could decrease by as much as approximately \$142.0 million within the next twelve months due to the completion of tax audits, including any administrative appeals.

The Company has numerous audits ongoing throughout the world including: an IRS income tax audit for the fiscal years ended October 30, 2021, November 2, 2019 and November 3, 2018; a pre-acquisition IRS income tax audit for Maxim's fiscal years ended June 27, 2015 through August 26, 2021; and various U.S. state and local audits and international audits, including an Irish corporate tax audit for the fiscal year ended November 2, 2019. The Company's U.S. federal income tax returns prior to the fiscal year ended November 3, 2018 are no longer subject to examination, except for the applicable Maxim pre-acquisition fiscal years noted above.

Note 13 – New Accounting Pronouncements

Standards Implemented

Acquired Contract Assets and Contract Liabilities

In October 2021, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2021-08, *Business Combinations (Topic 805): Accounting for Acquired Contract Assets and Contract Liabilities*. Under this guidance (ASC 805-20-30-28), the acquirer should determine what contract assets and/or contract liabilities it would have recorded under ASC 606 (the revenue guidance) as of the acquisition date, as if the acquirer had entered into the original contract at the same date and on the same terms as the acquiree. The recognition and measurement of those contract assets and contract liabilities will likely be comparable to what the acquiree has recorded on its books under ASC 606 as of the acquisition date. ASU 2021-08 is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. The Company adopted ASU 2021-08 in the first quarter of fiscal 2024. Upon adoption, ASU 2021-08 did not have a material impact on the Company's financial position and results of operations.

Standards to be Implemented

Segment Reporting

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*, which enhances the disclosure requirements for reportable segments. ASU 2023-07 requires segment disclosure to include significant segment expense categories and amounts, and qualitative detail of other segment items. Disclosure of multiple measures of segment profit and loss may also be reported. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact, if any, adoption will have on its financial position and results of operations.

Income Taxes

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*. ASU 2023-09 requires the disaggregation of information in existing income tax disclosures related to the effective tax rate reconciliation and income taxes paid. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact, if any, adoption will have on its financial position and results of operations.

Note 14 – Subsequent Events

On August 20, 2024, the Board of Directors of the Company declared a cash dividend of \$0.92 per outstanding share of common stock. The dividend will be paid on September 17, 2024 to all shareholders of record at the close of business on September 3, 2024 and is expected to total approximately \$456.8 million.

The fiscal year ending November 2, 2024 (fiscal 2024) is a 53-week fiscal year and fiscal 2023 was a 52-week fiscal year. The additional week in fiscal 2024 was included in the first quarter ended February 3, 2024. Therefore, the first nine months of fiscal 2024 included an additional week of operations as compared to the first nine months of fiscal 2023.

Revenue Trends by End Market

The following tables summarize revenue by end market. The categorization of revenue by end market is determined using a variety of data points including the technical characteristics of the product, the “sold to” customer information, the “ship to” customer information and the end customer product or application into which our product will be incorporated. As data systems for capturing and tracking this data and our methodology evolves and improves, the categorization of products by end market

can vary over time. When this occurs, we reclassify revenue by end market for prior periods. Such reclassifications typically do not materially change the sizing of, or the underlying trends of results within, each end market.

Revenue decreased 25% and 27% in the three- and nine-month periods ended August 3, 2024, respectively, as compared to the same periods of the prior fiscal year, primarily as a result of broad-based decline in demand for our products. The decrease in the nine-month period was partially offset by an additional week of operations in the first quarter of fiscal 2024 as compared to the first quarter of fiscal 2023.

Revenue by Sales Channel

The following tables summarize revenue by sales channel. We sell our products globally through a direct sales force, third party distributors, independent sales representatives and via our website. Distributors are customers that buy products with the intention of reselling them. Direct customers are non-distributor customers and consist primarily of original equipment manufacturers. Other customers include the U.S. government, government prime contractors and certain commercial customers for which revenue is recorded over time.

Gross margin %	56.7 %	63.8 %			56.8 %	65.0 %		

Gross margin percentage decreased by 710 and 820 basis points in the three- and nine-month periods ended August 3, 2024, respectively, as compared to the same periods of the prior fiscal year, primarily due to lower utilization of our factories due to decreased customer demand and unfavorable product mix.

Research and Development (R&D)

R&D expenses as a % of revenue	16 %	14 %			16 %	13 %		

R&D expenses decreased in the three- and nine-month periods ended August 3, 2024, as compared to the same periods of the prior fiscal year. The decrease in the three-month period was primarily as a result of lower R&D employee-related variable compensation expenses and lower salary and benefit expenses. The decrease in the nine-month period was primarily as a result of lower R&D employee-related variable compensation expenses, partially offset by higher salary and benefit expenses and the impact of an additional week of operations in the first quarter of fiscal 2024 as compared to the first quarter of fiscal 2023.

R&D expenses as a percentage of revenue will fluctuate from year-to-year depending on the amount of revenue and the success of new product development efforts, which we view as critical to our future growth. We expect to continue the development of innovative technologies and processes for new products. We believe that a continued commitment to R&D is essential to maintain product leadership with our existing products as well as to provide innovative new product offerings.

SMG&A expenses decreased in the three- and nine-month periods ended August 3, 2024, as compared to the same periods of the prior fiscal year, primarily as a result of lower SMG&A employee-related variable compensation expenses, salary and benefit expenses and discretionary spending. The decrease in the nine-month period was partially offset by an additional week of operations in the first quarter of fiscal 2024 as compared to the first quarter of fiscal 2023.

Amortization expenses as a % of revenue	8 %	8 %			8 %	8 %		

Amortization expenses decreased in the three- and nine-month periods ended August 3, 2024, as compared to the same periods of the prior fiscal year, primarily as a result of a portion of our acquired intangible assets becoming fully amortized during fiscal 2023.

Special Charges, Net

Special charges, net decreased in the three- and nine-month periods ended August 3, 2024, as compared to the same periods of the prior fiscal year, primarily due to the timing of charges recorded in each period. Fiscal 2023 charges were primarily related to Global Repositioning Actions, while fiscal 2024 charges were primarily related to the Q4 2023 Plan.

Operating income as a % of revenue	21.2 %	30.2 %			21.0 %	33.3 %		

The year-over-year decrease in operating income in the three-month period ended August 3, 2024 was primarily the result of a decrease in revenue, which contributed to a decrease in gross margin of \$650.4 million, partially offset by a decrease of \$212.2 million in net operating expenses.

The year-over-year decrease in operating income in the nine-month period ended August 3, 2024 was primarily the result of a decrease in revenue, which contributed to a decrease in gross margin of \$2,265.3 million, partially offset by a decrease of \$540.0 million in net operating expenses.

The year-over-year increases in nonoperating expense (income) in the three- and nine-month periods ended August 3, 2024, as compared to the same periods of the prior fiscal year, were primarily the result of higher foreign currency expenses.

The effective tax rates for the three- and nine-month periods ended August 3, 2024 and July 29, 2023 were below the U.S. statutory tax rate of 21% due to lower statutory tax rates applicable to our operations in the foreign jurisdictions in which we earn income. Our pretax income for the three- and nine-month periods ended August 3, 2024 and July 29, 2023 was primarily generated in Ireland at a tax rate of 12.5%.

Net income decreased in the nine-month period ended August 3, 2024, as compared to the same period of the prior fiscal year, as the result of a \$1,725.3 million decrease in operating income and a \$49.9 million increase in nonoperating expense (income), partially offset by a \$116.3 million decrease in provision for (benefit from) income taxes.

Liquidity and Capital Resources

At August 3, 2024, our principal source of liquidity was \$2.5 billion of cash, cash equivalents and short-term investments, of which approximately \$1.4 billion was held in the United States, and the balance of our cash, cash equivalents and short-term investments was held outside the United States in various foreign subsidiaries. We manage our worldwide cash requirements by, among other things, reviewing available funds held by our foreign subsidiaries and the cost effectiveness by which those funds can be accessed in the United States. We do not expect current regulatory restrictions or taxes on repatriation to have a material adverse effect on our overall liquidity, financial condition or results of operations. Our cash, cash equivalents and short-term investments consist of highly liquid investments, including money market funds and corporate and bank obligations. We maintain these balances with counterparties with high credit ratings, and continually monitor the amount of credit exposure to any one issuer and diversify our investments in order to minimize our credit risk.

We believe that our existing sources of liquidity and cash expected to be generated from future operations, together with existing and anticipated available short- and long-term financing, will be sufficient to fund operations, capital expenditures, research and development efforts and dividend payments (if any) in the immediate future and for at least the next twelve months.

	Nine Months Ended	
	August 3, 2024	July 29, 2023
Net cash provided by operating activities	\$ 2,801,712	\$ 3,630,340
Net cash provided by operations as a % of revenue	40 %	56 %
Net cash used for investing activities	\$ (993,244)	\$ (787,324)
Net cash used for financing activities	\$ (660,497)	\$ (3,164,342)

The following changes contributed to the net change in cash and cash equivalents in the nine-month period ended August 3, 2024 as compared to the same period in fiscal 2023.

Operating Activities

Cash provided by operating activities is net income adjusted for certain non-cash items and changes in operating assets and liabilities. The decrease in cash provided by operating activities during the nine-month period ended August 3, 2024, as compared to the same period of the prior fiscal year, was mainly the result of lower net income adjusted for noncash items offset by changes in working capital.

Investing Activities

Investing cash flows generally consist of capital expenditures and cash used for acquisitions. The increase in cash used for investing activities during the nine-month period ended August 3, 2024, as compared to the same period of the prior fiscal year, was primarily the result of the purchase of short-term investments, partially offset by a decrease in cash used for capital expenditures.

Financing Activities

Financing cash flows generally consist of payments of dividends to stockholders, repurchases of common stock, issuance and repayment of debt and proceeds from the sale of shares of common stock pursuant to employee equity incentive plans. The change in cash used for financing activities during the nine-month period ended August 3, 2024, as compared to the same period of the prior fiscal year, was primarily the result of lower common stock repurchases and net proceeds from the issuance of debt during fiscal 2024. For additional information, see Note 11, *Debt*, in the Notes to Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Working Capital

	August 3, 2024	October 28, 2023	\$ Change	% Change
Accounts receivable	\$ 1,127,158	\$ 1,469,734	\$ (342,576)	(23)%
Days sales outstanding*	42	52		
Inventory	\$ 1,427,936	\$ 1,642,214	\$ (214,278)	(13)%
Days cost of sales in inventory*	132	143		

* We use the average of the current quarter and prior quarter ending net accounts receivable and ending inventory balance in our calculation of days sales outstanding and days cost of sales in inventory, respectively.

The decrease in accounts receivable in dollars was primarily the result of variations in the timing of collections and billings and decreased revenue levels in the third quarter of fiscal 2024 as compared to the fourth quarter of fiscal 2023.

Inventory decreased primarily as a result of our efforts to balance manufacturing production, demand and inventory levels. Our inventory levels are impacted by our need to support forecasted sales demand and variations between those forecasts and actual demand.

Current liabilities increased to \$3,226.6 million at August 3, 2024 as compared to \$3,201.0 million at the end of fiscal 2023 due to higher current debt and income taxes payable, partially offset by lower accrued liabilities and accounts payable.

Debt

As of August 3, 2024, our debt obligations consisted of the following:

	Principal Amount Outstanding
Commercial paper notes	\$ 547,443
2024 Notes, due October 2024	500,000
2025 Notes, due April 2025	400,000
2026 Notes, due December 2026	900,000
2027 Notes, due June 2027	440,212
2028 Notes, due October 2028	750,000
2031 Notes, due October 2031	1,000,000
2032 Notes, due October 2032	300,000
2034 Notes, due April 2034	550,000
2036 Notes, due December 2036	144,278
2041 Notes, due October 2041	750,000
2045 Notes, due December 2045	332,587
2051 Notes, due October 2051	1,000,000
2054 Notes, due April 2054	550,000
Total debt	\$ 8,164,520

The indentures governing our outstanding notes contain covenants that may limit our ability to: incur, create, assume or guarantee any debt for borrowed money secured by a lien upon a principal property; enter into sale and lease-back transactions with respect to a principal property; and consolidate with or merge into, or transfer or lease all or substantially all of our assets to, any other party. As of August 3, 2024, we were in compliance with these covenants.

Commercial Paper Program

Under our commercial paper program, we may issue short-term, unsecured commercial paper notes in amounts up to a maximum aggregate face amount of \$2.5 billion outstanding at any time, with maturities of up to 397 days from the date of issuance. As of August 3, 2024, we had \$547.4 million of outstanding borrowings under the commercial paper program recorded in the Condensed Consolidated Balance Sheet. We use the net proceeds of the commercial paper program for general corporate purposes, including without limitation, repayment of indebtedness, stock repurchases, acquisitions, capital expenditures and working capital.

Revolving Credit Facility

Our Third Amended and Restated Revolving Credit Agreement, dated as of June 23, 2021 and as amended (Revolving Credit Agreement), provides for a five year unsecured revolving credit facility in an aggregate principal amount not to exceed \$2.5 billion (subject to certain terms and conditions).

We may borrow under this revolving credit facility in the future and use the proceeds for repayment of existing indebtedness, stock repurchases, acquisitions, capital expenditures, working capital and other lawful corporate purposes. The terms of the Revolving Credit Agreement impose restrictions on our ability to undertake certain transactions, to create certain liens on assets and to incur certain subsidiary indebtedness. In addition, the Revolving Credit Agreement contains a consolidated leverage ratio covenant of total consolidated funded debt to consolidated earnings before interest, taxes, depreciation, and amortization (EBITDA) of not greater than 3.5 to 1.0. As of August 3, 2024, we were in compliance with these covenants.

Stock Repurchase Program

In the aggregate, our Board of Directors has authorized us to repurchase \$16.7 billion of our common stock under our common stock repurchase program. Unless terminated earlier by resolution of our Board of Directors, the repurchase program will expire when we have repurchased all shares authorized under the program. As of August 3, 2024, an additional \$1.7 billion remains available for repurchase under the current authorized program. The repurchased shares are held as authorized but unissued shares of common stock. We also repurchase shares in settlement of employee tax withholding obligations due upon the vesting of restricted stock units/awards or the exercise of stock options as well as for our employee stock purchase plan. Future repurchases of common stock will be dependent upon our financial position, results of operations, outlook, liquidity and other factors we deem relevant.

Capital Expenditures

Net additions to property, plant and equipment were \$565.1 million in the first nine months of fiscal 2024. We expect capital expenditures for fiscal 2024 to be between approximately \$650 million and \$750 million. These capital expenditures will be funded with a combination of cash on hand and cash expected to be generated from future operations, together with existing and anticipated available short- and long-term financing.

Dividends

On August 20, 2024, our Board of Directors declared a cash dividend of \$0.92 per outstanding share of common stock. The dividend will be paid on September 17, 2024 to all shareholders of record at the close of business on September 3, 2024 and is expected to total approximately \$456.8 million. We currently expect quarterly dividends to continue in future periods. The payment of any future quarterly dividends, or a future increase in the quarterly dividend amount, will be at the discretion of the Board of Directors and will be dependent upon our financial position, results of operations, outlook, liquidity and other factors deemed relevant by the Board of Directors.

Contractual Obligations

In the second quarter of fiscal 2024, we issued \$550.0 million aggregate principal amount of 5.050% senior unsecured notes due April 1, 2034 (2034 Notes) and \$550.0 million aggregate principal amount of 5.300% senior unsecured notes due April 1, 2054 (2054 Notes). The 2034 Notes and the 2054 Notes have semi-annual fixed interest payments due on April 1 and October 1 of each year, commencing October 1, 2024. For additional information, see Note 11, *Debt*, in the Notes to Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q.

New Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board that are adopted by us as of the specified effective date. Unless otherwise discussed, management believes that the impact of recently issued standards will not have a material impact on our future financial condition and results of operations. See Note 13, *New Accounting Pronouncements*, in the Notes to Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for a description of recently issued and adopted accounting pronouncements, including the dates of adoption and impact on our historical financial condition and results of operations.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to market risks related to our financial instruments, including those identified in Part II, Item 7A, “Quantitative and Qualitative Disclosures about Market Risk” of our Annual Report on Form 10-K for the fiscal year ended October 28, 2023, which was filed with the Securities and Exchange Commission on November 21, 2023.

ITEM 4. Controls and Procedures

(a) *Evaluation of Disclosure Controls and Procedures.* Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of August 3, 2024. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of August 3, 2024, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

(b) *Changes in Internal Control over Financial Reporting.* No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the quarter ended August 3, 2024 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

In our Quarterly Report on Form 10-Q for the period ended May 4, 2024, which was filed with the Securities and Exchange Commission on May 22, 2024, we reported the adoption of a Rule 10b5-1 trading arrangement by Vincent Roche, our Chief Executive Officer and Chair of the Board of Directors. The disclosure inadvertently omitted 29,983 shares that may be sold under such Rule 10b5-1 trading arrangement. The correct amount of the total number of shares that may be sold under

the Rule 10b5-1 trading arrangement is 120,000. As contemplated by the Rule 10b5-1 trading arrangement, the schedule for sales of the 29,983 shares begins in March 2025, and as of the date of this report, none of those shares have been sold.
