At MILCOM 2014, Analog Devices' Demos to Showcase Entire RF Spectrum

Integrated RF transceivers, systems, subsystems and modules from Analog Devices featured

NORWOOD, Mass.--(BUSINESS WIRE)-- [Analog Devices, Inc.](http://www.analog.com) (NASDAQ: ADI) announced today it will demonstrate integrated solutions for the entire RF spectrum from dc to 110 GHz at the MILCOM 2014 Military Communications Conference Booth #670, Baltimore Convention Center, Baltimore, Maryland, October 6-8. ADI will showcase its award-winning integrated RF transceiver technology and a high-performance portfolio of components and modules for military and communications applications from the recently acquired Hittite Microwave Corp. (http://www.analog.com/en/press-release/7_22_2014_ADI_Completes_Acquisition_Of_Hittite/press.html.)

On-site demonstrations at ADI booth #670 include:

- Synchronized RF Transceivers Enabling Low SWaP Beamforming Solutions
- High-Performance IF Subsystem for Advanced High Dynamic Range Communications and Surveillance Systems
- Modeling Software for RF Transceivers
- Customized Module & MMIC Developments

About Analog Devices

Innovation, performance, and excellence are the cultural pillars on which Analog Devices has built one of the longest standing, highest growth companies within the technology sector. Acknowledged industry-wide as the world leader in data conversion and signal conditioning technology, Analog Devices serves over 60,000 customers, representing virtually all types of electronic equipment. Celebrating over 40 years as a leading global manufacturer of high-performance integrated circuits used in analog and digital signal processing applications, Analog Devices is headquartered in Norwood, Massachusetts, with design and manufacturing facilities throughout the world. Analog Devices' is included in the S&P 500 Index.
