---

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES  NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES  NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer

Non-accelerated filer  (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES  NO

As of August 4, 2012 there were 298,905,593 shares of common stock of the registrant, \$0.16 2/3 par value per share, outstanding.

See accompanying notes.

**Note 1 – Basis of Presentation**

In the opinion of management, the information furnished in the accompanying condensed consolidated financial statements reflects all normal recurring adjustments that are necessary to fairly state the results for these interim periods and should be read in conjunction with Analog Devices, Inc.'s (the Company) Annual Report on Form 10-K for the fiscal year ended October 29, 2011 and related notes. The results of operations for the interim periods shown in this report are not necessarily indicative of the results that may be expected for the fiscal year ending November 3, 2012 or any future period.

The Company sold its baseband chipset business and related support operations, or Baseband Chipset Business, to MediaTek Inc., during the first quarter of fiscal 2008. The Company has reflected the financial results of this business as discontinued operations in the condensed consolidated statements of income for all periods presented.

Certain amounts reported in previous years have been reclassified to conform to the fiscal 2012 presentation. Such reclassified amounts are immaterial. The Company has a 52-53 week fiscal year that ends on the Saturday closest to the last day in October. Fiscal 2012 is a 53-week fiscal year and fiscal 2011 was a 52-week fiscal year. The additional week in fiscal 2012 was included in the first quarter ended February 4, 2012. Therefore, the first nine months of fiscal 2012 included an additional week of operations as compared to the first nine months of fiscal 2011.

**Note 2 – Revenue Recognition**

Revenue from product sales to customers is generally recognized when title passes, which for shipments to certain foreign countries is subsequent to product shipment. Title for these shipments ordinarily passes within a week of shipment. A reserve for sales returns and allowances for customers is recorded based on historical experience or specific identification of an event necessitating a reserve.

In all regions of the world, the Company defers revenue and the related cost of sales on shipments to distributors until the distributors resell the products to their customers. As a result, the Company's revenue fully reflects end customer purchases and is not impacted by distributor inventory levels. Sales to distributors are made under agreements that allow distributors to receive price-adjustment credits, as discussed below, and to return qualifying products for credit, as determined by the Company, in order to reduce the amounts of slow-moving, discontinued or obsolete product from their inventory. These agreements limit such returns to a certain percentage of the value of the Company's shipments to that distributor during the prior quarter. In addition, distributors are allowed to return unsold products if the Company terminates the relationship with the distributor.

Distributors are granted price-adjustment credits for sales to their customers when the distributor's standard cost (i.e., the Company's sales price to the distributor) does not provide the distributor with an appropriate margin on its sales to its customers. As distributors negotiate selling prices with their customers, the final sales price agreed to with the customer will be influenced by many factors, including the particular product being sold, the quantity ordered, the particular customer, the geographic location of the distributor and the competitive landscape. As a result, the distributor may request and receive a price-adjustment credit from the Company to allow the distributor to earn an appropriate margin on the transaction.

Distributors are also granted price-adjustment credits in the event of a price decrease subsequent to the date the product was shipped and billed to the distributor. Generally, the Company will provide a credit equal to the difference between the price paid by the distributor (less any prior credits on such products) and the new price for the product multiplied by the quantity of such product in the distributor's inventory at the time of the price decrease.

Given the uncertainties associated with the levels of price-adjustment credits to be granted to distributors, the sales price to the distributor is not fixed or determinable until the distributor resells the products to their customers. Therefore, the Company defers revenue recognition from sales to distributors until the distributors have sold the products to their customers.

Title to the inventory transfers to the distributor at the time of shipment or delivery to the distributor, and payment from the distributor is due in accordance with the Company's standard payment terms. These payment terms are not contingent upon the distributors' sale of the products to their customers. Upon title transfer to distributors, inventory is reduced for the cost of goods shipped, the margin (sales less cost of sales) is recorded as "deferred income on shipments to distributors, net" and an account receivable is recorded.

The deferred costs of sales to distributors have historically had very little risk of impairment due to the margins the

Company earns on sales of its products and the relatively long life-cycle of the Company's products. Product returns from distributors that are ultimately scrapped have historically been immaterial. In addition, price protection and price-adjustment credits granted to distributors historically have not exceeded the margins the Company earns on sales of its products. The Company continuously monitors the level and nature of product returns and is in continuous contact with the distributors to ensure reserves are established for all known material issues.

As of August 4, 2012 and October 29, 2011, the Company had gross deferred revenue of \$312.0 million and \$309.6 million, respectively, and gross deferred cost of sales of \$65.3 million and \$76.4 million, respectively. Deferred income on shipments to distributors increased in the first nine months of fiscal 2012 as a result of the Company's shipments to its distributors exceeding the distributors' sales to their customers during the same time period and a mix shift in favor of higher margin products in the channel.

Shipping costs are charged to cost of sales as incurred.

The Company generally offers a 12-month warranty for its products. The Company's warranty policy provides for replacement of the defective product. Specific accruals are recorded for known product warranty issues. Product warranty expenses during the three- and nine-month periods ended August 4, 2012 and July 30, 2011 were not material.

### Note 3 – Stock-Based Compensation

Stock-based compensation is measured at the grant date based on the grant-date fair value of the awards ultimately expected to vest, and is recognized as an expense on a straight-line basis over the vesting period, which is generally five years for stock options and generally three years for restricted stock units. Determining the amount of stock-based compensation to be recorded requires the Company to develop estimates used in calculating the grant-date fair value of stock options.

*Grant-Date Fair Value* – The Company uses the Black-Scholes valuation model to calculate the grant-date fair value of stock option awards. The grant-date fair value of restricted stock units represents the value of the Company's common stock on the date of grant, reduced by the present value of dividends expected to be paid on the Company's common stock prior to vesting.

Information pertaining to the Company's stock option awards and the related estimated weighted-average assumptions to calculate the fair value of stock options granted during the three- and nine-month periods ended August 4, 2012 and July 30, 2011 are as follows:

	Three Months Ended		Nine Months Ended	
	August 4, 2012	July 30, 2011	August 4, 2012	July 30, 2011
<b>Stock Options</b>				
Options granted (in thousands)	36	20	2,263	1,980
Weighted-average exercise price	\$36.24	\$38.50	\$39.65	\$37.61
Weighted-average grant-date fair value	\$6.73	\$7.91	\$7.49	\$8.62
Assumptions:				
Weighted-average expected volatility	30.2%	28.2%	28.6%	29.2%
Weighted-average expected term (in years)	5.3	5.3	5.3	5.3
Weighted-average risk-free interest rate	0.6%	1.7%	1.1%	2.1%
Weighted-average expected dividend yield	3.3%	2.6%	3.0%	2.3%

*Expected volatility* — The Company is responsible for estimating volatility and has considered a number of factors, including third-party estimates, when estimating volatility. The Company currently believes that the exclusive use of implied volatility results in the best estimate of the grant-date fair value of employee stock options because it reflects the market's current expectations of future volatility. In evaluating the appropriateness of exclusively relying on implied volatility, the Company concluded that: (1) options in the Company's common stock are actively traded with sufficient volume on several exchanges; (2) the market prices of both the traded options and the underlying shares are measured at a similar point in time to each other and on a date close to the grant date of the employee share options; (3) the traded options have exercise prices that are both near-the-money and close to the exercise price of the employee share options; and (4) the remaining maturities of the traded options used to estimate volatility are at least one year.

*Expected term* — The Company uses historical employee exercise and option expiration data to estimate the expected term assumption for the Black-Scholes grant-date valuation. The Company believes that this historical data is currently the best

estimate of the expected term of a new option, and that generally its employees exhibit similar exercise behavior.

*Risk-free interest rate* — The yield on zero-coupon U.S. Treasury securities for a period that is commensurate with the expected term assumption is used as the risk-free interest rate.

*Expected dividend yield* — Expected dividend yield is calculated by annualizing the cash dividend declared by the Company’s Board of Directors for the current quarter and dividing that result by the closing stock price on the date of grant. Until such time as the Company’s Board of Directors declares a cash dividend for an amount that is different from the current quarter’s cash dividend, the current dividend will be used in deriving this assumption. Cash dividends are not paid on options, restricted stock or restricted stock units.

#### *Stock-Based Compensation Expense*

The amount of stock-based compensation expense recognized during a period is based on the value of the awards that are ultimately expected to vest. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The term “forfeitures” is distinct from “cancellations” or “expirations” and represents only the unvested portion of the surrendered stock-based award. Based on an analysis of its historical forfeitures, the Company has applied an annual forfeiture rate of 4.4% to all unvested stock-based awards as of August 4, 2012. The rate of 4.4% represents the portion that is expected to be forfeited each year over the vesting period. This analysis will be re-evaluated quarterly and the forfeiture rate will be adjusted as necessary. Ultimately, the actual expense recognized over the vesting period will only be for those options that vest.

#### *Additional paid-in-capital (APIC) Pool*

The APIC pool represents the excess tax benefits related to share-based compensation that are available to absorb future tax deficiencies. If the amount of future tax deficiencies is greater than the available APIC pool, the Company records the excess as income tax expense in its condensed consolidated statements of income. During the three- and nine-month periods ended July 30, 2011, the Company had a sufficient APIC pool to provide for any tax deficiencies recorded and as a result, these deficiencies did not affect its results of operations. During the three-month period ended February 4, 2012, the Company recognized \$1.8 million of income tax expense resulting from tax shortfalls related to share-based compensation in its condensed consolidated statement of income. During the three-month periods ended May 5, 2012 and August 4, 2012, the Company recorded excess tax benefits of \$0.3 million and \$3.9 million, respectively. The Company applied these excess tax benefits to the income tax expense previously recorded during the three-month period ended February 4, 2012, resulting in no income tax expense related to share-based compensation for the nine month period ended August 4, 2012.

#### *Stock-Based Compensation Activity*

A summary of the activity under the Company’s stock option plans as of August 4, 2012 and changes during the three- and nine-month periods then ended is presented below:

<u>Activity during the Three Months Ended August 4, 2012</u>	<u>Options Outstanding (in thousands)</u>	<u>Weighted-Average Exercise Price Per Share</u>	<u>Weighted-Average Remaining Contractual Term in Years</u>	<u>Aggregate Intrinsic Value</u>
<b>Options outstanding May 5, 2012</b>	30,438	\$30.88		
Options granted	36	\$36.24		
Options exercised	(1,023)	\$22.95		
Options forfeited	(70)	\$28.49		
Options expired	(48)	\$36.45		
<b>Options outstanding at August 4, 2012</b>	<u>29,333</u>	<u>\$31.16</u>	4.7	\$ 262,212
<b>Options exercisable at August 4, 2012</b>	<u>18,019</u>	<u>\$31.52</u>	3.7	\$ 157,897
<b>Options vested or expected to vest at August 4, 2012 (1)</b>	<u>28,816</u>	<u>\$31.09</u>	4.6	\$ 259,656

(1) In addition to the vested options, the Company expects a portion of the unvested options to vest at some point in the future. Options expected to vest is calculated by applying an estimated forfeiture rate to the unvested options.

<u>Activity during the Nine Months Ended August 4, 2012</u>	Options Outstanding (in thousands)	Weighted- Average Exercise Price Per Share
<b>Options outstanding October 29, 2011</b>	34,116	\$30.27
Options granted	2,263	\$39.65
Options exercised	(4,553)	\$24.43
Options forfeited	(358)	\$27.82
Options expired	(2,135)	\$40.94
<b>Options outstanding at August 4, 2012</b>	<u>29,333</u>	<u>\$31.16</u>

During the three and nine months ended August 4, 2012, the total intrinsic value of options exercised (i.e. the difference between the market price at exercise and the price paid by the employee to exercise the options) was \$15.6 million and \$64.9 million, respectively, and the total amount of proceeds received by the Company from exercise of these options was \$23.5 million and \$111.3 million, respectively. Proceeds from stock option exercises pursuant to employee stock plans in the Company's statement of cash flows during the nine months ended August 4, 2012 of \$110.7 million are net of the value of shares surrendered by employees in certain limited circumstances to satisfy the exercise price of options and employee tax obligations upon vesting of restricted stock units and in connection with the exercise of stock options granted to the Company's employees under the Company's equity compensation plans. The withholding amount is based on the Company's minimum statutory withholding requirement.

During the three and nine months ended July 30, 2011, the total intrinsic value of options exercised (i.e. the difference between the market price at exercise and the price paid by the employee to exercise the options) was \$18.9 million and \$88.6 million, respectively, and the total amount of proceeds received by the Company from exercise of these options was \$41.2 million and \$189.4 million, respectively. Proceeds from stock option exercises pursuant to employee stock plans in the Company's statement of cash flows during the nine months ended July 30, 2011 of \$189.2 million are net of the value of shares surrendered by employees in certain limited circumstances to satisfy the exercise price of options and employee tax obligations upon vesting of restricted stock units and in connection with the exercise of stock options granted to the Company's employees under the Company's equity compensation plans. The withholding amount is based on the Company's minimum statutory withholding requirement.

A summary of the Company's restricted stock unit award activity as of August 4, 2012 and changes during the three- and nine-month periods then ended is presented below:

<u>Activity during the Three Months Ended August 4, 2012</u>	Restricted Stock Units Outstanding (in thousands)	Weighted- Average Grant- Date Fair Value Per Share
<b>Restricted stock units outstanding at May 5, 2012</b>	2,830	\$32.71
Units granted	39	\$34.10
Restrictions lapsed	(16)	\$27.24
Forfeited	(16)	\$32.65
<b>Restricted stock units outstanding at August 4, 2012</b>	<u>2,837</u>	<u>\$32.76</u>

<u>Activity during the Nine Months Ended August 4, 2012</u>	Restricted Stock Units Outstanding (in thousands)	Weighted- Average Grant- Date Fair Value Per Share
<b>Restricted stock units outstanding at October 29, 2011</b>	2,088	\$31.10
Units granted	882	\$36.10
Restrictions lapsed	(63)	\$27.57
Forfeited	(70)	\$29.89
<b>Restricted stock units outstanding at August 4, 2012</b>	<u>2,837</u>	<u>\$32.76</u>

As of August 4, 2012, there was \$94.8 million of total unrecognized compensation cost related to unvested share-based awards comprised of stock options and restricted stock units. That cost is expected to be recognized over a weighted-average period of 1.4 years. The total grant-date fair value of shares that vested during the three and nine months ended August 4, 2012

was approximately \$0.6 million and \$27.4 million, respectively. The total grant-date fair value of shares that vested during the three and nine months ended July 30, 2011 was approximately \$0.4 million and \$27.4 million, respectively.

#### Note 4 – Comprehensive Income

Components of comprehensive income include net income and certain transactions that have generally been reported in the consolidated statement of shareholders' equity and consist of the following:

	Three Months Ended	
	August 4, 2012	July 30, 2011
Net income	\$ 169,768	\$ 219,935
Foreign currency translation adjustments	(2,045)	1,455
Change in unrealized holding gains (losses) (net of taxes of \$319 and \$17, respectively) on securities classified as short-term investments	1,334	(113)
Change in unrealized holding losses (net of taxes of \$0 and \$62, respectively) on securities classified as other investments	—	(116)
Change in unrealized losses (net of taxes of \$344 and \$783, respectively) on derivative instruments designated as cash flow hedges	(2,062)	(5,155)
Pension plans		
Transition obligation	—	(2)
Net actuarial gain	1,240	980
Other comprehensive loss	(1,533)	(2,951)
Comprehensive income	<u>\$ 168,235</u>	<u>\$ 216,984</u>
	Nine Months Ended	
	August 4, 2012	July 30, 2011
Income from continuing operations, net of tax	\$ 472,049	\$ 677,367
Foreign currency translation adjustments	(5,686)	7,614
Change in unrealized holding gains (net of taxes of \$90 and \$1, respectively) on securities classified as short-term investments	447	11
Change in unrealized holding (losses) gains (net of taxes of \$300 and \$1, respectively) on securities classified as other investments	(558)	1
Change in unrealized losses (net of taxes of \$757 and \$334, respectively) on derivative instruments designated as cash flow hedges	(5,168)	(2,512)
Pension plans		
Transition obligation	(1)	(4)
Net actuarial gain (loss)	2,381	(1,175)
Other comprehensive (loss) gain	(8,585)	3,935
Comprehensive income from continuing operations	463,464	681,302
Gain on sale of discontinued operations, net of tax	—	6,500
Comprehensive income	<u>\$ 463,464</u>	<u>\$ 687,802</u>

The components of accumulated other comprehensive loss, net of tax, at August 4, 2012 and October 29, 2011 consisted of the following:

	August 4, 2012	October 29, 2011
Foreign currency translation adjustment	\$ (7,724)	\$ (2,038)
Unrealized gains on available-for-sale securities	346	695
Unrealized losses on available-for-sale securities	(403)	(641)
Unrealized (losses) gains on derivative instruments	(3,481)	1,687
<b>Pension plans</b>		
Transition obligation	(118)	(117)
Net actuarial loss	(23,374)	(25,755)
Total accumulated other comprehensive loss	<u>\$ (34,754)</u>	<u>\$ (26,169)</u>

The aggregate fair value of investments with unrealized losses as of August 4, 2012 and October 29, 2011 was \$1,357.5 million and \$1,899.4 million, respectively. These unrealized losses were primarily related to commercial paper that earns lower interest rates than current market rates. None of these investments have been in a loss position for more than twelve months.

Unrealized gains and losses on available-for-sale securities classified as short-term investments at August 4, 2012 and October 29, 2011 are as follows:

	August 4, 2012	October 29, 2011
Unrealized gains on securities classified as short-term investments	\$ 450	\$ 22
Unrealized losses on securities classified as short-term investments	(491)	(600)
Net unrealized losses on securities classified as short-term investments	<u>\$ (41)</u>	<u>\$ (578)</u>

Realized gains or losses on investments are determined based on the specific identification basis and are recognized in nonoperating (income) expense. Gross realized gains of approximately \$1.3 million and gross realized losses of approximately \$0.1 million on sales of available-for-sale investments were recognized in the nine-month period ended August 4, 2012. There were no material net realized gains or losses from the sales of available-for-sale investments during any other of the fiscal periods presented.

#### Note 5 – Earnings Per Share

Basic earnings per share is computed based only on the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed using the weighted average number of common shares outstanding during the period, plus the dilutive effect of potential future issuances of common stock relating to stock option programs and other potentially dilutive securities using the treasury stock method. In calculating diluted earnings per share, the dilutive effect of stock options is computed using the average market price for the respective period. In addition, the assumed proceeds under the treasury stock method include the average unrecognized compensation expense of stock options that are in-the-money and restricted stock units. This results in the “assumed” buyback of additional shares, thereby reducing the dilutive impact of in-the-money stock options. Potential shares related to certain of the Company’s outstanding stock options were excluded because they were anti-dilutive. Those potential shares, determined based on the weighted average exercise prices during the respective years, related to the Company’s outstanding stock options could be dilutive in the future.

	Three Months Ended	
	August 4, 2012	July 30, 2011
Net Income	<u>\$ 169,768</u>	<u>\$ 219,935</u>
<b>Basic shares:</b>		
Weighted-average shares outstanding	298,445	299,616
Earnings per share Basic:	<u>\$ 0.57</u>	<u>\$ 0.73</u>
<b>Diluted shares:</b>		
Weighted-average shares outstanding	298,445	299,616
Assumed exercise of common stock equivalents	6,914	9,128
Weighted-average common and common equivalent shares	305,359	308,744
Earnings per share Diluted:	<u>\$ 0.56</u>	<u>\$ 0.71</u>
<b>Weighted average anti-dilutive shares related to:</b>		
Outstanding stock options	8,829	4,820

	Nine Months Ended	
	August 4, 2012	July 30, 2011
Income from continuing operations, net of tax	\$ 472,049	\$ 677,367
Gain on sale of discontinued operations, net of tax	—	6,500
Net income	<u>\$ 472,049</u>	<u>\$ 683,867</u>
Basic shares:		
Weighted-average shares outstanding	298,121	299,586
Earnings per share-basic:		
Income from continuing operations, net of tax	\$ 1.58	\$ 2.26
Gain on sale of discontinued operations, net of tax	—	0.02
Net income	<u>\$ 1.58</u>	<u>\$ 2.28</u>
Diluted shares:		
Weighted-average shares outstanding	298,121	299,586
Assumed exercise of common stock equivalents	7,483	9,484
Weighted-average common and common equivalent shares	<u>305,604</u>	<u>309,070</u>
Earnings per share-diluted:		
Income from continuing operations, net of tax	\$ 1.54	\$ 2.19
Gain on sale of discontinued operations, net of tax	—	0.02
Net income	<u>\$ 1.54</u>	<u>\$ 2.21</u>
Weighted average anti-dilutive shares related to:		
Outstanding stock options	6,565	5,942

#### Note 6 – Special Charges

The Company monitors global macroeconomic conditions on an ongoing basis, and continues to assess opportunities for improved operational effectiveness and efficiency and better alignment of expenses with revenues. As a result of these assessments, the Company has undertaken various restructuring actions over the past several years. These actions are described below.

The following tables display the special charges taken for ongoing actions and a roll-forward from October 29, 2011 to August 4, 2012 of the employee separation and exit cost accruals established related to these actions.

Statement of Income	Reduction of Operating Costs				
	2008	2009	2010	2011	2012
Workforce reductions	\$ 1,627	\$ 26,583	\$ 10,908	\$ 2,239	\$ 7,966
Facility closure costs	—	2,411	—	—	186
Non-cash impairment charge	—	839	487	—	219
Other items	—	500	24	—	60
Total Charges	<u>\$ 1,627</u>	<u>\$ 30,333</u>	<u>\$ 11,419</u>	<u>\$ 2,239</u>	<u>\$ 8,431</u>

<u>Accrued Restructuring</u>	<u>Reduction of Operating Costs</u>
<b>Balance at October 29, 2011</b>	\$ 3,876
First quarter fiscal 2012 special charges	2,595
Severance payments	(1,359)
<b>Balance at February 4, 2012</b>	\$ 5,112
Severance payments	(2,760)
<b>Balance at May 5, 2012</b>	\$ 2,352
Third quarter fiscal 2012 special charges	5,836
Severance payments	(3,043)
Facility closure costs	(128)
Non-cash impairment charge	(219)
Effect of foreign currency on accrual	3
<b>Balance at August 4, 2012</b>	<u>\$ 4,801</u>

#### *Reduction of Operating Costs*

During fiscal 2008 through fiscal 2010, the Company recorded special charges of approximately \$43.3 million. These special charges included: \$39.1 million for severance and fringe benefit costs in accordance with its ongoing benefit plan or statutory requirements at foreign locations for 245 manufacturing employees and 470 engineering and selling, marketing, general and administrative (SMG&A) employees; \$2.1 million for lease obligation costs for facilities that the Company ceased using during the first quarter of fiscal 2009; \$0.8 million for the write-off of property, plant and equipment; \$0.5 million for contract termination costs and \$0.3 million for clean-up and closure costs that were expensed as incurred; and \$0.5 million related to the impairment of intellectual property. The Company terminated the employment of all employees associated with these actions.

During fiscal 2011, the Company recorded a special charge of approximately \$2.2 million for severance and fringe benefit costs in accordance with its ongoing benefit plan or statutory requirements at foreign locations for 25 engineering and SMG&A employees. As of August 4, 2012, the Company employed 2 of the 25 employees included in this cost reduction action. These employees must continue to be employed by the Company until their employment is involuntarily terminated in order to receive the severance benefit.

During the first quarter of fiscal 2012, the Company recorded a special charge of approximately \$2.6 million. The special charge included \$2.5 million for severance and fringe benefit costs in accordance with its ongoing benefit plan or statutory requirements at foreign locations for 34 manufacturing, engineering and SMG&A employees and \$0.1 million for contract termination costs. The Company terminated the employment of all employees associated with these actions and is paying amounts owed to them as income continuance.

During the third quarter of fiscal 2012, the Company recorded a special charge of approximately \$5.8 million. The special charge included \$5.4 million for severance and fringe benefits costs in accordance with its ongoing benefit plan or statutory requirements at foreign locations for 61 manufacturing, engineering and SMG&A employees; \$0.2 million for lease obligation costs for facilities that the Company ceased using during the third quarter of fiscal 2012 and \$0.2 million for the write-off of property, plant and equipment. As of August 4, 2012, the Company employed 25 of the 61 employees included in this cost reduction action. These employees must continue to be employed by the Company until their employment is involuntarily terminated in order to receive the severance benefit.

#### **Note 7 – Segment Information**

The Company operates and tracks its results in one reportable segment based on the aggregation of five operating segments. The Company designs, develops, manufactures and markets a broad range of integrated circuits. The Chief Executive Officer has been identified as the Chief Operating Decision Maker.

#### *Revenue Trends by End Market*

The following table summarizes revenue by end market. The categorization of revenue by end market is determined using a variety of data points including the technical characteristics of the product, the “sold to” customer information, the “ship to” customer information and the end customer product or application into which the Company’s product will be incorporated. As data systems for capturing and tracking this data evolve and improve, the categorization of products by end market can vary

over time. When this occurs, the Company reclassifies revenue by end market for prior periods. Such reclassifications typically do not materially change the sizing of, or the underlying trends of results within, each end market.

	Three Months Ended			Three Months Ended	
	August 4, 2012			July 30, 2011	
	Revenue	% of Revenue	Y/Y%	Revenue	% of Revenue*
Industrial	\$ 322,295	47%	(12)%	\$ 367,511	48%
Automotive	114,655	17%	12 %	102,160	13%
Consumer	108,905	16%	(19)%	134,771	18%
Communications	137,171	20%	(11)%	153,460	20%
<b>Total revenue</b>	<b>\$ 683,026</b>	<b>100%</b>	<b>(10)%</b>	<b>\$ 757,902</b>	<b>100%</b>

\* The sum of the individual percentages does not equal the total due to rounding.

	Nine Months Ended			Nine Months Ended	
	August 4, 2012			July 30, 2011	
	Revenue	% of Revenue*	Y/Y%	Revenue	% of Revenue*
Industrial	\$ 935,054	47%	(15)%	\$ 1,094,316	48%

Consumer	333,049	17%	(20)%	415,056	18%
Communications	384,843	19%	(17)%	463,194	20%
<b>Total revenue</b>	<b>\$ 2,006,178</b>	<b>100%</b>	<b>(12)%</b>	<b>\$ 2,277,186</b>	<b>100%</b>

\* The sum of the individual percentages does not equal the total due to rounding.

#### Revenue Trends by Product Type

The following table summarizes revenue by product categories. The categorization of the Company's products into broad categories is based on the characteristics of the individual products, the specification of the products and in some cases the specific uses that certain products have within applications. The categorization of products into categories is therefore subject to judgment in some cases and can vary over time. In instances where products move between product categories, the Company reclassifies the amounts in the product categories for all prior periods. Such reclassifications typically do not materially change the sizing of, or the underlying trends of results within, each product category.

	Three Months Ended			Three Months Ended	
	August 4, 2012			July 30, 2011	
	Revenue	% of Revenue*	Y/Y%	Revenue	% of Revenue*

\* The sum of the individual percentages does not equal the total due to rounding.

#### Revenue Trends by Geographic Region

During the second quarter of fiscal 2012, the Company revised its method for classifying revenue by geographic region to more accurately reflect the primary location of our customers' design activity for our products. Prior periods have been reclassified to align with this definition. In general, the prior classification method reflected the customers' manufacturing location or the distributors' stocking territory. No changes have been made to the Company's revenue recognition policy. Revenue by geographic region for the three- and nine-month periods ended August 4, 2012 and July 30, 2011 was as follows:

Region	Three Months Ended		Nine Months Ended	
	August 4, 2012	July 30, 2011	August 4, 2012	July 30, 2011
United States	\$ 202,080	\$ 218,447	\$ 590,155	\$ 659,094
Rest of North and South America	25,268	33,816	87,533	112,032
Europe	216,809	245,917	640,102	738,718
Japan	87,169	96,730	254,195	292,010
China	89,616	98,865	254,597	282,993
Rest of Asia	62,084	64,127	179,596	192,339
<b>Total revenue</b>	<b>\$ 683,026</b>	<b>\$ 757,902</b>	<b>\$ 2,006,178</b>	<b>\$ 2,277,186</b>

In the three- and nine-month periods ended August 4, 2012 and July 30, 2011, the predominant countries comprising "Rest of North and South America" are Canada and Mexico; the predominant countries comprising "Europe" are Germany, Sweden, France and the United Kingdom; and the predominant countries comprising "Rest of Asia" are Taiwan and South Korea.

#### Note 8 – Fair Value

The Company defines fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

*Level 1* — Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

*Level 2* — Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3* — Level 3 inputs are unobservable inputs for the asset or liability in which there is little, if any, market activity

for the asset or liability at the measurement date.

The tables below set forth by level the Company's financial assets and liabilities, excluding accrued interest components that were accounted for at fair value on a recurring basis as of August 4, 2012 and October 29, 2011. The tables exclude cash on hand and assets and liabilities that are measured at historical cost or any basis other than fair value. As of August 4, 2012 and October 29, 2011, the Company held \$154.5 million and \$31.6 million, respectively, of cash and held-to-maturity investments that were excluded from the tables below.

	August 4, 2012			
	Fair Value measurement at Reporting Date using:			Total

<b>Total liabilities measured at fair value</b>	<b>\$ —</b>	<b>\$ 396,337</b>	<b>\$ 13,973</b>	<b>\$ 410,310</b>

(1) The amortized cost of the Company's investments classified as available-for-sale as of October 29, 2011 was \$2,284.9 million.

(2) The Company has a master netting arrangement by counterparty with respect to derivative contracts. As of October 29, 2011, contracts in a liability position of \$0.8 million were netted against contracts in an asset position in the condensed consolidated balance sheet.

(3) Equal to the accreted notional value of the debt plus the fair value of the interest rate component of the long-term debt. The fair value of the long-term debt as of October 29, 2011 was \$413.4 million, which is classified as a level 1 measurement according to the fair value hierarchy.

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

**Cash equivalents and short-term investments** — These investments are adjusted to fair value based on quoted market prices or are determined using a yield curve model based on current market rates.

**Deferred compensation plan investments and other investments** — The fair value of these mutual fund, money market fund and equity investments are based on quoted market prices.

**Long-term debt** — The fair value of long-term debt is based on quotes received from third-party banks.

**Interest rate swap agreements** — The fair value of interest rate swap agreements is based on quotes received from third-party banks. These values represent the estimated amount the Company would receive or pay to terminate the agreements taking into consideration current interest rates as well as the creditworthiness of the counterparty.

**Forward foreign currency exchange contracts** — The estimated fair value of forward foreign currency exchange

contracts, which includes derivatives that are accounted for as cash flow hedges and those that are not designated as cash flow hedges, is based on the estimated amount the Company would receive if it sold these agreements at the reporting date taking into consideration current interest rates as well as the creditworthiness of the counterparty for assets and the Company's creditworthiness for liabilities.

**Contingent consideration** — The fair value of the contingent consideration was estimated utilizing the income approach and is based upon significant inputs not observable in the market. The income approach is based on two steps. The first step involves a projection of the cash flows which is based on the Company's estimates of the timing and probability of achieving the defined milestones. The second step involves converting the cash flows into a present value equivalent through discounting. The discount rate reflects the Baa costs of debt plus the relevant risk associated with the asset and the time value of money.

The fair value measurement of the contingent consideration encompasses the following significant unobservable inputs:

<b>Unobservable Inputs</b>	<b>Range</b>
Estimated contingent consideration payments	\$13,000
Discount rate	7% - 10%
Timing of cash flows	1 - 16 months
Probability of achievement	100%

Changes in the fair value of the contingent consideration subsequent to the acquisition date that are primarily driven by assumptions pertaining to the achievement of the defined milestones will be recognized in operating income in the period of the estimated fair value change. Significant increases or decreases in any of the inputs in isolation could result in a fluctuation in the fair value measurement.

The following table summarizes the change in the fair value of the contingent consideration measured using significant unobservable inputs (Level 3) as of October 29, 2011 and August 4, 2012:

	<b>Contingent Consideration</b>
<b>Balance as of October 30, 2010</b>	\$ —
Contingent consideration liability recorded	13,790
Fair value adjustment (1)	183
<b>Balance as of October 29, 2011</b>	<b>\$ 13,973</b>
Payment made (2)	(2,000)
Fair value adjustment (1)	343
<b>Balance as of August 4, 2012</b>	<b>\$ 12,316</b>

- (1) Recorded in research and development expense in the condensed consolidated statements of income.
- (2) The payment is reflected in the statements of cash flows as cash used in financing activities related to the liability recognized at fair value as of the acquisition date and as cash provided by operating activities related to the fair value adjustments previously recognized in earnings.

#### *Financial Instruments Not Recorded at Fair Value on a Recurring Basis*

On June 30, 2009, the Company issued \$375.0 million aggregate principal amount of 5.0% senior unsecured notes due July 1, 2014 (the 5.0% Notes) with semi-annual fixed interest payments due on January 1 and July 1 of each year, commencing January 1, 2010. Based on quotes received from third-party banks, the fair value of the 5.0% Notes as of August 4, 2012 was \$405.7 million and is classified as a Level 1 measurement according to the fair value hierarchy.

On April 4, 2011, the Company issued \$375.0 million aggregate principal amount of 3.0% senior unsecured notes due April 15, 2016 (the 3.0% Notes) with semi-annual fixed interest payments due on April 15 and October 15 of each year, commencing October 15, 2011. Based on quotes received from third-party banks, the fair value of the 3.0% Notes as of August 4, 2012 and October 29, 2011 was \$403.9 million and \$392.8 million, respectively and is classified as a Level 1 measurement according to the fair value hierarchy.

## Note 9 – Derivatives

*Foreign Exchange Exposure Management* — The Company enters into forward foreign currency exchange contracts to offset certain operational and balance sheet exposures from the impact of changes in foreign currency exchange rates. Such exposures result from the portion of the Company's operations, assets and liabilities that are denominated in currencies other than the U.S. dollar, primarily the Euro; other significant exposures include the Philippine Peso and the British Pound. These foreign currency exchange contracts are entered into to support transactions made in the normal course of business, and accordingly, are not speculative in nature. The contracts are for periods consistent with the terms of the underlying transactions, generally one year or less. Hedges related to anticipated transactions are designated and documented at the inception of the respective hedges as cash flow hedges and are evaluated for effectiveness monthly. Derivative instruments are employed to eliminate or minimize certain foreign currency exposures that can be confidently identified and quantified. As the terms of the contract and the underlying transaction are matched at inception, forward contract effectiveness is calculated by comparing the change in fair value of the contract to the change in the forward value of the anticipated transaction, with the effective portion of the gain or loss on the derivative instrument reported as a component of accumulated other comprehensive (loss) income (OCI) in shareholders' equity and reclassified into earnings in the same period during which the hedged transaction affects earnings. Any residual change in fair value of the instruments, or ineffectiveness, is recognized immediately in other (income) expense. Additionally, the Company enters into forward foreign currency contracts that economically hedge the gains and losses generated by the re-measurement of certain recorded assets and liabilities in a non-functional currency. Changes in the fair value of these undesignated hedges are recognized in other (income) expense immediately as an offset to the changes in the fair value of the asset or liability being hedged. As of August 4, 2012 and October 29, 2011, the total notional amount of these undesignated hedges was \$28.7 million and \$41.2 million, respectively. The fair value of these hedging instruments in the Company's condensed consolidated balance sheets as of August 4, 2012 and October 29, 2011 was immaterial.

*Interest Rate Exposure Management* — On June 30, 2009, the Company entered into interest rate swap transactions related to its outstanding 5.0% senior unsecured notes where the Company swapped the notional amount of its \$375.0 million of fixed rate debt at 5.0% into floating interest rate debt through July 1, 2014. Under the terms of the swaps, the Company would (i) receive on the \$375.0 million notional amount a 5.0% annual interest payment that is paid in two installments on the 1st business day of every January and July, commencing January 1, 2010 through and ending on the maturity date; and (ii) pay on the \$375.0 million notional amount an annual three months LIBOR plus 2.05% interest payment, payable in four installments on the 1st business day of every January, April, July and October, commencing on October 1, 2009 and ending on the maturity date. The LIBOR-based rate was set quarterly three months prior to the date of the interest payment. The Company designated these swaps as fair value hedges. The fair value of the swaps at inception was zero and subsequent changes in the fair value of the interest rate swaps were reflected in the carrying value of the interest rate swaps on the balance sheet. The carrying value of the debt on the balance sheet was adjusted by an equal and offsetting amount. The gain or loss on the hedged item (that is, the fixed-rate borrowings) attributable to the hedged benchmark interest rate risk and the offsetting gain or loss on the related interest rate swaps for the nine-month periods ended August 4, 2012 and July 30, 2011 were as follows:

Statement of income classification	August 4, 2012			July 30, 2011		
	Loss on Swaps	Gain on Note	Net Income Effect	Loss on Swaps	Gain on Note	Net Income Effect
Other income	\$ (769)	\$ 769	\$ —	\$ (4,182)	\$ 4,182	\$ —

The amounts earned and owed under the swap agreements were accrued each period and were reported in interest expense. There was no ineffectiveness recognized in any of the periods presented. In the second quarter of fiscal 2012, the Company terminated the interest rate swap agreement. The Company received \$19.8 million in cash proceeds from the swap termination, which included \$1.3 million in accrued interest. The proceeds, net of interest received, are disclosed in cash flows from financing activities in the consolidated statements of cash flows. As a result of the termination the carrying value of the 5.0% Notes was adjusted for the change in the fair value of the interest component of the debt up to the date of the termination of the swap in an amount equal to the fair value of the swap, and will be amortized to earnings as a reduction of interest expense over the remaining life of the debt. This amortization is reflected in the consolidated statements of cash flows within operating activities.

The market risk associated with the Company's derivative instruments results from currency exchange rate or interest rate movements that are expected to offset the market risk of the underlying transactions, assets and liabilities being hedged. The counterparties to the agreements relating to the Company's derivative instruments consist of a number of major international financial institutions with high credit ratings. Based on the credit ratings of the Company's counterparties as of August 4, 2012, nonperformance is not perceived to be a significant risk. Furthermore, none of the Company's derivatives are subject to collateral or other security arrangements and none contain provisions that are dependent on the Company's credit ratings from any credit rating agency. While the contract or notional amounts of derivative financial instruments provide one measure of the

volume of these transactions, they do not represent the amount of the Company's exposure to credit risk. The amounts potentially subject to credit risk (arising from the possible inability of counterparties to meet the terms of their contracts) are generally limited to the amounts, if any, by which the counterparties' obligations under the contracts exceed the obligations of the Company to the counterparties. As a result of the above considerations, the Company does not consider the risk of counterparty default to be significant.

The Company records the fair value of its derivative financial instruments in the condensed consolidated financial statements in other current assets, other assets or accrued liabilities, depending on their net position, regardless of the purpose or intent for holding the derivative contract. Changes in the fair value of the derivative financial instruments are either recognized periodically in earnings or in shareholders' equity as a component of OCI. Changes in the fair value of cash flow hedges are recorded in OCI and reclassified into earnings when the underlying contract matures. Changes in the fair values of derivatives not qualifying for hedge accounting are reported in earnings as they occur.

The total notional amounts of derivative instruments designated as hedging instruments was \$147.5 million and \$153.7 million, respectively, of cash flow hedges denominated in Euros, British Pounds, Philippine Pesos and Japanese Yen as of August 4, 2012 and October 29, 2011, respectively. The Company also had \$375.0 million of interest rate swap agreements accounted for as fair value hedges as of October 29, 2011. The fair values of these hedging instruments in the Company's condensed consolidated balance sheets as of August 4, 2012 and October 29, 2011 were as follows:

	Balance Sheet Location	Fair Value At	
		August 4, 2012	October 29, 2011
Interest rate swap agreements	Other assets	\$ —	\$ 22,187
Forward foreign currency exchange contracts	Prepaid expenses and other current assets	\$ —	\$ 2,038
	Accrued liabilities	\$ 4,039	\$ —

The effect of derivative instruments designated as cash flow hedges on the condensed consolidated statements of income for the three- and nine-month periods ended August 4, 2012 and July 30, 2011 were as follows:

	Three Months Ended	
	August 4, 2012	July 30, 2011
Loss recognized in OCI on derivatives (net of tax of \$862 in 2012 and \$351 in 2011)	\$ (5,161)	\$ (2,311)
Loss (gain) reclassified from OCI into income (net of tax of \$517 in 2012 and \$432 in 2011)	\$ 3,099	\$ (2,844)

  

	Nine Months Ended	
	August 4, 2012	July 30, 2011
(Loss) gain recognized in OCI on derivatives (net of tax of \$1,807 in 2012 and \$693 in 2011)	\$ (11,805)	\$ 4,344
Loss (gain) reclassified from OCI into income (net of tax of \$1,049 in 2012 and \$1,027 in 2011)	\$ 6,637	\$ (6,856)

The amounts reclassified into earnings before tax are recognized in cost of sales and operating expenses for the three- and nine-month periods ended August 4, 2012 and July 30, 2011 were as follows:

	Three Months Ended	
	August 4, 2012	July 30, 2011
Cost of sales	\$ 1,390	\$ 1,535
Research and development	\$ 978	\$ 833
Selling, marketing, general and administrative	\$ 1,248	\$ 908

	Nine Months Ended	
	August 4, 2012	July 30, 2011
Cost of sales	\$ 2,912	\$ 3,784
Research and development	\$ 2,071	\$ 2,029
Selling, marketing, general and administrative	\$ 2,703	\$ 2,070

All derivative gains and losses included in OCI will be reclassified into earnings within the next 12 months. There was no ineffectiveness in the three- and nine-month periods ended August 4, 2012 and July 30, 2011.

#### Note 10 – Goodwill and Intangible Assets

##### Goodwill

The Company annually evaluates goodwill for impairment as well as whenever events or changes in circumstances suggest that the carrying value of goodwill may not be recoverable. The Company tests goodwill for impairment at the reporting unit level (operating segment or one level below an operating segment) on an annual basis on the first day of the fourth quarter (on or about August 1) or more frequently if indicators of impairment exist. For the Company's latest annual impairment assessment that occurred on July 31, 2011, the Company identified its reporting units to be its five operating segments, which meet the aggregation criteria for one reportable segment. The performance of the test involves a two-step process. The first step of the impairment test involves comparing the fair values of the applicable reporting units with their aggregate carrying values, including goodwill. The Company determines the fair value of its reporting units using the income approach methodology of valuation that includes the discounted cash flow method as well as other generally accepted valuation methodologies. If the carrying amount of a reporting unit exceeds the reporting unit's fair value, the Company performs the second step of the goodwill impairment test to determine the amount of impairment loss. The second step of the goodwill impairment test involves comparing the implied fair value of the affected reporting unit's goodwill with the carrying value of that goodwill. No impairment of goodwill resulted in any of the fiscal years presented. The Company's next annual impairment assessment will be performed as of the first day of the fourth quarter of fiscal 2012. The following table presents the changes in goodwill during the first nine months of fiscal 2012:

	Nine Months Ended August 4, 2012	
Balance at beginning of period	\$	275,087
Acquisition of Multigig (Note 16)		6,878
Foreign currency translation adjustment		(2,602)
Balance at end of period	\$	279,363

##### Intangible Assets

The Company reviews finite-lived intangible assets for impairment whenever events or changes in circumstances indicate that the carrying value of assets may not be recoverable. Recoverability of these assets is measured by comparison of their carrying value to future undiscounted cash flows the assets are expected to generate over their remaining economic lives. If such assets are considered to be impaired, the impairment to be recognized in earnings equals the amount by which the carrying value of the assets exceeds their fair value determined by either a quoted market price, if any, or a value determined by utilizing a discounted cash flow technique. As of October 29, 2011, the Company's finite-lived intangible assets were fully amortized. As of August 4, 2012, the Company's finite-lived intangible assets consisted of the following which related to the acquisition of Multigig, Inc. (Note 16):

	August 4, 2012	
	Gross Carrying Amount	Accumulated Amortization
Technology-based	\$ 1,100	\$ 74

Amortization expense related to finite-lived intangible assets was immaterial for the three- and nine-month periods ended August 4, 2012 and was \$0.3 million and \$1.1 million for the three- and nine-month periods ended July 30, 2011, respectively. The remaining amortization expense will be recognized over a weighted-average period of approximately 2.5 years.

The Company expects annual amortization expense for intangible assets to be:

<u>Fiscal Year</u>	<u>Amortization Expense</u>
Remaining of fiscal year 2012	\$55
2013	\$220
2014	\$220
2015	\$220
2016	\$220
2017	\$92

Indefinite-lived intangible assets are tested for impairment on an annual basis on the first day of the fourth quarter (on or about August 1) or more frequently if indicators of impairment exist. The impairment test involves the comparison of the fair value of the intangible asset with its carrying amount. No impairment of intangible assets resulted in any of the fiscal years presented.

Intangible assets, excluding in-process research and development (IPR&D), are amortized on a straight-line basis over their estimated useful lives or on an accelerated method of amortization that is expected to reflect the estimated pattern of economic use. IPR&D assets are considered indefinite-lived intangible assets until completion or abandonment of the associated R&D efforts. Upon completion of the projects, the IPR&D assets will be amortized over their estimated useful lives.

Indefinite-lived intangible assets consisted of \$27.8 million and \$12.2 million of IPR&D as of August 4, 2012 and October 29, 2011, respectively.

#### **Note 11 – Pension Plans**

The Company has various defined benefit pension and other retirement plans for certain non-U.S. employees that are consistent with local statutory requirements and practices. The Company's funding policy for its foreign defined benefit pension plans is consistent with the local requirements of each country. The plans' assets consist primarily of U.S. and non-U.S. equity securities, bonds, property and cash.

Net periodic pension cost of non-U.S. plans is presented in the following table:

	<u>Three Months Ended</u>	
	<u>August 4, 2012</u>	<u>July 30, 2011</u>
Service cost	\$ 1,938	\$ 2,340
Interest cost	2,648	2,916
Expected return on plan assets	(2,547)	(2,797)
Amortization of initial net obligation	5	4
Amortization of net loss	89	417
Net periodic pension cost	<u>\$ 2,133</u>	<u>\$ 2,880</u>
	<u>Nine Months Ended</u>	
	<u>August 4, 2012</u>	<u>July 30, 2011</u>
Service cost	\$ 5,926	\$ 6,872
Interest cost	8,185	8,544
Expected return on plan assets	(7,857)	(8,202)
Amortization of initial net obligation	15	12
Amortization of net loss	269	1,221
Net periodic pension cost	<u>\$ 6,538</u>	<u>\$ 8,447</u>

Pension contributions of \$3.5 million and \$9.1 million were made by the Company during the three and nine months ended August 4, 2012, respectively. The Company presently anticipates contributing an additional \$1.1 million to fund its

defined benefit pension plans in fiscal year 2012 for a total of \$10.2 million.

#### **Note 12 – Revolving Credit Facility**

As of August 4, 2012, the Company had \$3,765.0 million of cash and cash equivalents and short-term investments, of which \$1,007.3 million was held in the United States. The balance of the Company's cash and cash equivalents and short-term investments was held outside the United States in various foreign subsidiaries. As the Company intends to reinvest certain of its foreign earnings indefinitely, this cash is not available to meet certain of the Company's cash requirements in the United States, including for cash dividends and common stock repurchases. The Company entered into a five-year, \$165.0 million unsecured revolving credit facility with certain institutional lenders in May 2008. To date, the Company has not borrowed under this credit facility but the Company may borrow in the future and use the proceeds for support of commercial paper issuance, stock repurchases, dividend payments, acquisitions, capital expenditures, working capital and other lawful corporate purposes. Any advances under this credit agreement will accrue interest at rates that are equal to LIBOR plus a margin that is based on the Company's leverage ratio. The terms of the facility impose restrictions on the Company's ability to undertake certain transactions, to create certain liens on assets and to incur certain subsidiary indebtedness. The terms of this facility also include financial covenants that require the Company to maintain a minimum interest coverage ratio and not exceed a maximum leverage ratio. As of August 4, 2012, the Company was compliant with these covenants.

#### **Note 13 – Debt**

On June 30, 2009, the Company issued \$375.0 million aggregate principal amount of 5.0% senior unsecured notes due July 1, 2014 (the 5.0% Notes) with semi-annual fixed interest payments due on January 1 and July 1 of each year, commencing January 1, 2010. The sale of the 5.0% Notes was made pursuant to the terms of an underwriting agreement dated June 25, 2009 between the Company and Credit Suisse Securities (USA) LLC, as representative of the several underwriters named therein. The net proceeds of the offering were \$370.4 million, after issuing at a discount and deducting expenses, underwriting discounts and commissions, which will be amortized over the term of the 5.0% Notes. The indenture governing the 5.0% Notes contains covenants that may limit the Company's ability to: incur, create, assume or guarantee any debt for borrowed money secured by a lien upon a principal property; enter into sale and lease-back transactions with respect to a principal property; and consolidate with or merge into, or transfer or lease all or substantially all of its assets to, any other party. As of August 4, 2012, the Company was compliant with these covenants. The notes are subordinated to any future secured debt and to the other liabilities of the Company's subsidiaries.

On June 30, 2009, the Company entered into interest rate swap transactions where the Company swapped the notional amount of its \$375.0 million of fixed rate debt at 5.0% into floating interest rate debt through July 1, 2014. Under the terms of the swaps, the Company would (i) receive on the \$375.0 million notional amount a 5.0% annual interest payment that is paid in two installments on the 1st business day of every January and July, commencing January 1, 2010 through and ending on the maturity date; and (ii) pay on the \$375.0 million notional amount an annual three month LIBOR plus 2.05% interest payment, payable in four installments on the 1st business day of every January, April, July and October, commencing on October 1, 2009 and ending on the maturity date. The LIBOR-based rate was set quarterly three months prior to the date of the interest payment. The Company designated these swaps as fair value hedges. The changes in the fair value of the interest rate swaps were reflected in the carrying value of the interest rate swaps in other assets on the balance sheet. The carrying value of the debt on the balance sheet was adjusted by an equal and offsetting amount. In the second quarter of fiscal 2012, the Company terminated the interest rate swap agreement. The Company received \$19.8 million in cash proceeds from the swap termination, which included \$1.3 million in accrued interest. The proceeds, net of interest received, are disclosed in cash flows from financing activities in the consolidated statements of cash flows. As a result of the termination, the carrying value of the 5.0% Notes was adjusted for the change in the fair value of the interest component of the debt up to the date of the termination of the swap in an amount equal to the fair value of the swap, and will be amortized to earnings as a reduction of interest expense over the remaining life of the debt. This amortization is reflected in the consolidated statements of cash flows within operating activities.

On December 22, 2010, Analog Devices Holdings B.V., a wholly owned subsidiary of the Company, entered into a credit agreement with Bank of America, N.A., London Branch as administrative agent. The borrower's obligations are guaranteed by the Company. The credit agreement provides for a term loan facility of \$145.0 million, which matures on December 22, 2013. The terms of the agreement provide for a three year principal amortization schedule with \$3.6 million payable quarterly every March, June, September and December with the balance payable upon the maturity date. During the third quarter of fiscal 2011, the Company made an additional principal payment of \$17.5 million. During the first quarter of fiscal 2012, the Company made an additional principal payment of \$12.0 million. The loan will bear interest at a fluctuating rate for each period equal to the LIBOR rate corresponding with the tenor of the interest period plus a spread of 1.25% (1.72% as of August 4, 2012). The terms of this facility include limitations on subsidiary indebtedness and on liens against the assets of the Company and its subsidiaries, and also include financial covenants that require the Company to maintain a minimum interest coverage ratio and not exceed a maximum leverage ratio. As of August 4, 2012, the Company was compliant with these covenants. As of

August 4, 2012, \$14.5 million of this debt was classified as short-term.

On April 4, 2011, the Company issued \$375.0 million aggregate principal amount of 3.0% senior unsecured notes due April 15, 2016 (the 3.0% Notes) with semi-annual fixed interest payments due on April 15 and October 15 of each year, commencing October 15, 2011. The sale of the 3.0% Notes was made pursuant to the terms of an underwriting agreement dated March 30, 2011 between the Company and Credit Suisse Securities (USA) LLC and Merrill Lynch, Pierce, Fenner and Smith Incorporated, as representative of the several underwriters named therein. The net proceeds of the offering were \$370.5 million, after issuing at a discount and deducting expenses, underwriting discounts and commissions, which will be amortized over the term of the 3.0% Notes. The indenture governing the 3.0% Notes contains covenants that may limit the Company's ability to: incur, create, assume or guarantee any debt for borrowed money secured by a lien upon a principal property; enter into sale and lease-back transactions with respect to a principal property; and consolidate with or merge into, or transfer or lease all or substantially all of its assets to, any other party. As of August 4, 2012, the Company was compliant with these covenants. The notes are subordinated to any future secured debt and to the other liabilities of the Company's subsidiaries.

The Company's principal payments related to its long-term debt obligations are as follows: \$3.6 million remaining in fiscal year 2012; \$14.5 million in fiscal year 2013; \$450.6 million in fiscal year 2014; and \$375.0 million in fiscal year 2016.

#### Note 14 – Common Stock Repurchase

The Company's common stock repurchase program has been in place since August 2004. In the aggregate, the Board of Directors has authorized the Company to repurchase \$5.0 billion of the Company's common stock under the program. Under the program, the Company may repurchase outstanding shares of its common stock from time to time in the open market and through privately negotiated transactions. Unless terminated earlier by resolution of the Company's Board of Directors, the repurchase program will expire when the Company has repurchased all shares authorized under the program. As of August 4, 2012, the Company had repurchased a total of approximately 128.6 million shares of its common stock for approximately \$4,418.2 million under this program. An additional \$581.8 million remains available for repurchase of shares under the current authorized program. The repurchased shares are held as authorized but unissued shares of common stock. Any future common stock repurchases will be dependent upon several factors, including the amount of cash available to the Company in the United States and the Company's financial performance, outlook and liquidity. The Company also from time to time repurchases shares in settlement of employee tax withholding obligations due upon the vesting of restricted stock units, or in certain limited circumstances to satisfy the exercise price of options granted to the Company's employees under the Company's equity compensation plans.

#### Note 15 – Discontinued Operations

In September 2007, the Company entered into a definitive agreement to sell its Baseband Chipset Business to MediaTek Inc. The decision to sell the Baseband Chipset Business was due to the Company's decision to focus its resources in areas where its signal processing expertise can provide unique capabilities and earn superior returns. During fiscal 2008, the Company completed the sale of its Baseband Chipset Business for net cash proceeds of \$269.0 million. The Company made cash payments of \$1.7 million during fiscal 2009 related to retention payments for employees who transferred to MediaTek Inc. and for the reimbursement of intellectual property license fees incurred by MediaTek. During fiscal 2010, the Company received cash proceeds of \$62.0 million as a result of the receipt of a refundable withholding tax and also recorded an additional gain on sale of \$0.3 million, or \$0.2 million net of tax, due to the settlement of certain items at less than the amounts accrued. In fiscal 2011, additional proceeds of \$10.0 million were released from escrow and \$6.5 million, net of tax, was recorded as additional gain from the sale of discontinued operations. The Company does not expect any additional proceeds from this sale.

The following amounts related to the Baseband Chipset Business have been segregated from continuing operations and reported as discontinued operations.

	<b>Nine Months Ended</b>	
	<b>July 30, 2011</b>	
Gain on sale of discontinued operations before income taxes	\$	10,000
Provision for income taxes		3,500
Gain on sale of discontinued operations, net of tax	\$	6,500

#### Note 16 – Acquisitions

On March 30, 2012, the Company acquired privately-held Multigig, Inc. (Multigig) of San Jose, California. The acquisition of Multigig is expected to enhance the Company's clocking capabilities in stand-alone and embedded applications

and strengthen the Company's high speed signal processing solutions. The acquisition-date fair value of the consideration transferred totaled \$26.8 million, which consisted of \$24.2 million in initial cash payments at closing and an additional \$2.6 million subject to an indemnification holdback that is payable within 15 months of the transaction date, which is included in accrued liabilities in the condensed consolidated balance sheet as of August 4, 2012. During the third quarter of fiscal 2012, we reduced this holdback amount by \$0.1 million as a result of indemnification claims made by the Company. The Company's assessment of fair value to the tangible and intangible assets acquired and liabilities assumed was based on their estimated fair values at the date of acquisition, resulting in the recognition of \$15.6 million of IPR&D, \$1.1 million of developed technology, \$7.0 million of goodwill and \$3.1 million of net deferred tax assets. The goodwill recognized is attributable to future technologies that have yet to be determined as well as the assembled workforce of Multigig. Future technologies do not meet the criteria for recognition separately from goodwill because they are a part of future development and growth of the business. None of the goodwill is expected to be deductible for tax purposes. The acquisition accounting is not complete and adjustments may be recorded to deferred tax assets in future periods due to the evaluation of net operating loss carryforwards. In addition, the Company will be obligated to pay royalties to the Multigig employees on revenue recognized from the sale of certain Multigig products through the earlier of 5 years or the aggregate maximum payment of \$1.0 million. Royalty payments to Multigig employees require post-acquisition services to be rendered and, as such, the Company will record these amounts as compensation expense in the related periods. As of August 4, 2012, no royalty payments have been made. The Company recognized \$0.5 million of acquisition-related costs that were expensed in the second quarter of fiscal 2012, which were included in operating expenses in the condensed consolidated statement of income.

On June 9, 2011, the Company acquired privately-held Lyric Semiconductor, Inc. (Lyric) of Cambridge, Massachusetts. The acquisition of Lyric gives the Company the potential to achieve significant improvement in power efficiency in mixed signal processing. The acquisition-date fair value of the consideration transferred totaled \$27.8 million, which consisted of \$14.0 million in initial cash payments at closing and contingent consideration of up to \$13.8 million. The contingent consideration arrangement requires additional cash payments to the former equity holders of Lyric upon the achievement of certain technological and product development milestones payable during the period from June 2011 through June 2016. The Company estimated the fair value of the contingent consideration arrangement utilizing the income approach. Changes in the fair value of the contingent consideration subsequent to the acquisition date primarily driven by assumptions pertaining to the achievement of the defined milestones will be recognized in operating income in the period of the estimated fair value change. As of August 4, 2012, the Company had paid \$2.0 million in contingent consideration. The payment is reflected in the statements of cash flows as cash used in financing activities related to the liability recognized at fair value as of the acquisition date and cash provided by operating activities related to the fair value adjustments previously recognized in earnings. The fair value of the remaining contingent consideration was approximately \$12.3 million as of August 4, 2012, of which \$7.8 million is included in accrued liabilities and \$4.5 million is included in other non-current liabilities in the condensed consolidated balance sheet. The Company's assessment of fair value to the tangible and intangible assets acquired and liabilities assumed was based on their estimated fair values at the date of acquisition, resulting in the recognition of \$12.2 million of IPR&D, \$18.9 million of goodwill and \$3.3 million of net deferred tax liabilities. The goodwill recognized is attributable to future technologies that have yet to be determined as well as the assembled workforce of Lyric. Future technologies do not meet the criteria for recognition separately from goodwill because they are a part of future development and growth of the business. None of the goodwill is expected to be deductible for tax purposes. In addition, the Company will be obligated to pay royalties to the former equity holders of Lyric on revenue recognized from the sale of Lyric products and licenses through the earlier of 20 years or the accrual of a maximum of \$25.0 million. Royalty payments to Lyric employees require post-acquisition services to be rendered and, as such, the Company will record these amounts as compensation expense in the related periods. As of August 4, 2012, no royalty payments have been made. The Company recognized \$0.2 million of acquisition-related costs that were expensed in the third quarter of fiscal 2011, which were included in operating expenses in the condensed consolidated statement of income.

The Company has not provided pro forma results of operations for Multigig and Lyric herein as they were not material to the Company on either an individual or an aggregate basis. The Company included the results of operations of each acquisition in its consolidated statement of income from the date of each acquisition.

#### **Note 17 – Income Taxes**

The Company has provided for potential tax liabilities due in the various jurisdictions in which the Company operates. Judgment is required in determining the worldwide income tax expense provision. In the ordinary course of global business, there are many transactions and calculations where the ultimate tax outcome is uncertain. Some of these uncertainties arise as a consequence of cost reimbursement arrangements among related entities. Although the Company believes its estimates are reasonable, no assurance can be given that the final tax outcome of these matters will not be different from that which is reflected in the historical income tax provisions and accruals. Such differences could have a material impact on the Company's income tax provision and operating results in the period in which such determination is made.

The Company has filed a petition with the Tax Court for one open matter for fiscal years 2006 and 2007 that pertains to Section 965 of the Internal Revenue Code related to the beneficial tax treatment of dividends paid from foreign owned companies under The American Jobs Creation Act. The potential liability for this adjustment is \$36.5 million. The Company has concluded, based on discussions with its tax advisors that this item is not likely to result in any additional tax liability. Therefore, the Company has not recorded any additional tax liability for this issue.

All of the Company's U.S. federal tax returns prior to fiscal year 2009 are no longer subject to examination.

All of the Company's Ireland tax returns prior to fiscal year 2008 are no longer subject to examination.

#### *Unrealized Tax Benefits*

The following table summarizes the changes in the total amounts of unrealized tax benefits for the three and nine months ended August 4, 2012.

Balance, October 29, 2011	\$	9,665
Settlements with taxing authorities		(3,488)
Balance, February 4, 2012	\$	6,177
Settlements with taxing authorities		—
Balance, May 5, 2012	\$	6,177
Reductions for tax positions related to prior years		(2,681)
Balance, August 4, 2012	\$	3,496

Although the Company believes its estimates of income tax payable are reasonable, no assurance can be given that the Company will prevail in the matters raised and that the outcome of these matters will not be different than that which is reflected in the historical income tax provisions and accruals. The Company believes such differences would not have a material impact on the Company's financial condition but could have a material impact on the Company's income tax provision, operating results and operating cash flows in the period in which such matters are resolved as well as for subsequent years.

#### **Note 18 – New Accounting Pronouncements**

##### *Standards Implemented*

###### *Intangibles – Goodwill and Other*

In December 2010, the Financial Accounting Standards Board (FASB) issued ASU No. 2010-28, *Intangibles - Goodwill and Other (ASC Topic 350)* (ASU No. 2010-28). ASU No. 2010-28 modifies Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test only if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. ASU No. 2010-28 is effective for fiscal years that begin after December 15, 2010, which is the Company's fiscal year 2012. The adoption of ASU No. 2010-28 in the first quarter of fiscal 2012 did not have a material impact on the Company's financial condition and results of operations.

##### *Standards to be Implemented*

###### *Intangibles – Goodwill and Other*

In July 2012, the FASB issued ASU No. 2012-02, *Intangibles - Goodwill and Other (ASC Topic 350) Testing Indefinite-Lived Intangible Assets for Impairment* (ASU No. 2012-02). ASU No. 2012-02 permits an entity to first assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test in accordance with Subtopic 350-30, *Intangibles-Goodwill and Other-General Intangibles Other than Goodwill*. ASU No. 2012-02 is effective for fiscal years that begin after September 15, 2012, which is the Company's fiscal year 2013. The adoption of ASU No. 2012-02 will not impact the Company's financial condition or results of operations.

###### *Balance Sheet*

In December 2011, the FASB issued ASU No. 2011-11, *Disclosures about Offsetting Assets and Liabilities* (ASU No. 2011-11). ASU No. 2011-11 amended ASC 210, *Balance Sheet*, to converge the presentation of offsetting assets and liabilities between U.S. GAAP and IFRS. ASU No. 2011-11 requires that entities disclose both gross information and net information about both instruments and transactions eligible for offset in the statement of financial position and instruments.

and transactions subject to an agreement similar to a master netting arrangement. ASU No. 2011-11 is effective for fiscal years, and interim periods within those years, beginning after January 1, 2013, which is the Company's fiscal year 2014. The adoption of ASU No. 2011-11 will require additional disclosures related to offsetting assets and liabilities but will not impact the Company's financial condition or results of operations.

#### *Comprehensive Income*

In June 2011, the FASB issued ASU No. 2011-05, *Presentation of Comprehensive Income* (ASU No. 2011-05). ASU No. 2011-05 amended ASC 220, *Comprehensive Income*, to converge the presentation of comprehensive income between U.S. GAAP and IFRS. ASU No. 2011-05 requires that all non-owner changes in stockholders' equity be presented in either a single continuous statement of comprehensive income or in two separate but consecutive statements and requires reclassification adjustments for items that are reclassified from other comprehensive income to net income in the statements where the components of net income and the components of other comprehensive income are presented. ASU No. 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement in changes of stockholders equity. ASU No. 2011-05 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, which is the Company's fiscal year 2013. Subsequently, in December 2011, the FASB issued ASU No. 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05* (ASU No. 2011-12), which defers only those changes in ASU No. 2011-05 that relate to the presentation of reclassification adjustments but does not affect all other requirements in ASU No. 2011-05. The adoption of ASU No. 2011-05 and ASU No. 2011-12 will affect the presentation of comprehensive income but will not impact the Company's financial condition or results of operations.

#### **Note 19 – Subsequent Event**

On August 20, 2012, the Board of Directors of the Company declared a cash dividend of \$0.30 per outstanding share of common stock. The dividend will be paid on September 12, 2012 to all shareholders of record at the close of business on August 31, 2012.

## ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This information should be read in conjunction with the unaudited condensed consolidated financial statements and related notes included in Item 1 of this Quarterly Report on Form 10-Q and the audited consolidated financial statements and related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the fiscal year ended October 29, 2011.

This Management's Discussion and Analysis of Financial Condition and Results of Operations, including in particular the section entitled "Outlook," contains forward-looking statements regarding future events and our future results that are subject to the safe harbor created under the Private Securities Litigation Reform Act of 1995. These statements are based on current expectations, estimates, forecasts, and projections about the industries in which we operate and the beliefs and assumptions of our management. Words such as "expects," "anticipates," "targets," "goals," "projects," "intends," "plans," "believes," "seeks," "estimates," "continues," and "may," and variations of such words and similar expressions are intended to identify such forward-looking statements. In addition, any statements that refer to projections regarding our future financial performance; our anticipated growth and trends in our businesses; our future capital needs and capital expenditures; our future market position and expected competitive changes in the marketplace for our products; our ability to pay dividends or repurchase stock; our ability to service our outstanding debt; our expected tax rate; the effect of new accounting pronouncements; and other characterizations of future events or circumstances are forward-looking statements. Readers are cautioned that these forward-looking statements are only predictions and are subject to risks, uncertainties, and assumptions that are difficult to predict, including those identified in Part II, Item 1A. Risk Factors and elsewhere in our Quarterly Report on Form 10-Q. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. We undertake no obligation to revise or update any forward-looking statements except to the extent required by law.

During the first quarter of fiscal 2008, we sold our baseband chipset business and related support operations, or Baseband Chipset Business, to MediaTek Inc. The financial results of this business are presented as discontinued operations in the condensed consolidated statements of income for all periods presented. Unless otherwise noted, this Management's Discussion and Analysis relates only to financial results from continuing operations.

### Results of Operations

(all tabular amounts in thousands except per share amounts and percentages)

#### Overview

	Three Months Ended		\$ Change	% Change
	August 4, 2012	July 30, 2011		
Revenue	\$ 683,026	\$ 757,902	\$ (74,876)	(10)%
Gross margin %	65.6%	67.2%		
Net income	\$ 169,768	\$ 219,935	\$ (50,167)	(23)%
Net income as a % of revenue	24.9%	29.0%		
Diluted EPS	\$ 0.56	\$ 0.71	\$ (0.15)	(21)%

	Nine Months Ended		\$ Change	% Change
	August 4, 2012	July 30, 2011		
Revenue	\$ 2,006,178	\$ 2,277,186	\$ (271,008)	(12)%
Gross margin %	64.7%	67.0%		
Income from continuing operations, net of tax	\$ 472,049	\$ 677,367	\$ (205,318)	(30)%
Income from continuing operations, net of tax, as a % of revenue	23.5%	29.7%		
Diluted EPS from continuing operations	\$ 1.54	\$ 2.19	\$ (0.65)	(30)%
Diluted EPS	\$ 1.54	\$ 2.21	\$ (0.67)	(30)%

Fiscal 2012 is a 53-week year and fiscal 2011 was a 52-week year. The additional week in fiscal 2012 was included in the first quarter ended February 4, 2012. Therefore, the first nine months of fiscal 2012 included an additional week of operations as compared to the first nine months of fiscal 2011.

The year-to-year revenue changes by end market and product category are more fully outlined below under *Revenue Trends by End Market* and *Revenue Trends by Product Type*.

During the first nine months of fiscal 2012, our revenue decreased 12%, compared to the first nine months of fiscal 2011. Our diluted earnings per share from continuing operations decreased to \$1.54 in the first nine months of fiscal 2012 compared to \$2.19 in the first nine months of fiscal 2011. Cash flow from operations in the first nine months of fiscal 2012 was \$578.5 million, or 29% of revenue. During the first nine months of fiscal 2012, we received \$110.7 million in net proceeds from employee stock option exercises, repurchased a total of approximately 3.7 million shares of our common stock for an aggregate of \$139.7 million, distributed \$253.3 million to our shareholders in dividend payments, paid \$22.9 million in principal payments related to our \$145.0 million term loan facility, paid \$94.7 million for property, plant and equipment additions and paid \$24.2 million, net of cash acquired, for the acquisition of Multigig. In addition, we paid \$1,115.0 million for the net purchase of available-for-sale short term investments. These factors contributed to the net decrease in cash and cash equivalents of \$943.0 million in the first nine months of fiscal 2012.

The year-to-year decrease in revenue and profitability for the three and nine months ended August 4, 2012 was primarily attributable to a slowdown in orders as our customers reduced their inventory levels from the levels recorded at the end of the second quarter of fiscal 2011. In the second quarter of fiscal 2011, customers had built inventory in order to reduce the risk of supply disruptions as a result of the March 2011 earthquake and tsunami in Japan. In addition, the ongoing European debt crisis and the global credit and financial crisis caused customers to become more cautious in the first nine months of fiscal 2012. We believe that our variable cost structure and continued efforts to manage production, inventory levels and expenses helped to mitigate the effect that these lower sales levels had on our earnings.

#### *Revenue Trends by End Market*

The following table summarizes revenue by end market. The categorization of revenue by end market is determined using a variety of data points including the technical characteristics of the product, the “sold to” customer information, the “ship to” customer information and the end customer product or application into which our product will be incorporated. As data systems for capturing and tracking this data evolve and improve, the categorization of products by end market can vary over time. When this occurs, we reclassify revenue by end market for prior periods. Such reclassifications typically do not materially change the sizing of, or the underlying trends of results within, each end market.

	Three Months Ended			Three Months Ended	
	August 4, 2012			July 30, 2011	
	Revenue	% of Revenue	Y/Y%	Revenue	% of Revenue*
Industrial	\$ 322,295	47%	(12)%	\$ 367,511	48%
Automotive	114,655	17%	12 %	102,160	13%
Consumer	108,905	16%	(19)%	134,771	18%
Communications	137,171	20%	(11)%	153,460	20%
<b>Total revenue</b>	<b>\$ 683,026</b>	<b>100%</b>	<b>(10)%</b>	<b>\$ 757,902</b>	<b>100%</b>

\* The sum of the individual percentages does not equal the total due to rounding.

	Nine Months Ended			Nine Months Ended	
	August 4, 2012			July 30, 2011	
	Revenue	% of Revenue*	Y/Y%	Revenue	% of Revenue*
Industrial	\$ 935,054	47%	(15)%	\$ 1,094,316	48%
Automotive	353,232	18%	16 %	304,620	13%
Consumer	333,049	17%	(20)%	415,056	18%
Communications	384,843	19%	(17)%	463,194	20%
<b>Total revenue</b>	<b>\$ 2,006,178</b>	<b>100%</b>	<b>(12)%</b>	<b>\$ 2,277,186</b>	<b>100%</b>

\* The sum of the individual percentages does not equal the total due to rounding.

*Industrial* – The year-to-year decrease in revenue in the three- and nine-month periods ended August 4, 2012 in industrial end market revenue was primarily the result of a broad-based decrease in demand in this end market. The year-to-year decrease was most significant for products sold into the industrial automation and instrumentation sectors.

*Automotive* – The year-to-year increase in revenue in the three- and nine-month periods ended August 4, 2012 in automotive end market revenue was primarily the result of an increase in the electronic content in automobiles, used in infotainment, and to a lesser extent in safety and power train applications and a general increase in demand by our customers.

*Consumer* – The year-to-year decrease in revenue in the three- and nine-month periods ended August 4, 2012 in consumer end market revenue was primarily the result of a broad-based decrease in demand for products sold in this end market.

*Communications* – The year-to-year decrease in revenue in the three- and nine-month periods ended August 4, 2012 in communications end market revenue was primarily the result of a broad-based decrease in demand in this end market, which was most significant for products sold into the wireless base station end market sector.

#### Revenue Trends by Product Type

The following table summarizes revenue by product categories. The categorization of our products into broad categories is based on the characteristics of the individual products, the specification of the products and in some cases the specific uses that certain products have within applications. The categorization of products into categories is therefore subject to judgment in some cases and can vary over time. In instances where products move between product categories, we reclassify the amounts in the product categories for all prior periods. Such reclassifications typically do not materially change the sizing of, or the underlying trends of results within, each product category.

	Three Months Ended			Three Months Ended		
	August 4, 2012			July 30, 2011		
	Revenue	% of Revenue*	Y/Y%	Revenue	% of Revenue*

Power management & reference	45,401	7%	(17)%	54,957	7%	
<b>Total analog products</b>	<b>\$ 624,203</b>	<b>91%</b>	<b>(10)%</b>	<b>\$ 696,345</b>	<b>92%</b>	
Digital signal processing	58,823	9%	(4)%	61,557	8%	
<b>Total revenue</b>	<b>\$ 683,026</b>	<b>100%</b>	<b>(10)%</b>	<b>\$ 757,902</b>	<b>100%</b>	

\* The sum of the individual percentages does not equal the total due to rounding.

	Nine Months Ended			Nine Months Ended		
	August 4, 2012			July 30, 2011		
	Revenue	% of Revenue	Y/Y%	Revenue	% of Revenue*	
Converters	\$ 884,771	44%	(13)%	\$ 1,020,194	45%	
Amplifiers / Radio frequency	523,208	26%	(14)%	605,593	27%	
Other analog	285,293	14%	(8)%	309,146	14%	
Subtotal analog signal processing	1,693,272	84%	(12)%	1,934,933	85%	
Power management & reference	136,326	7%	(17)%	164,442	7%	
<b>Total analog products</b>	<b>\$ 1,829,598</b>	<b>91%</b>	<b>(13)%</b>	<b>\$ 2,099,375</b>	<b>92%</b>	
Digital signal processing	176,580	9%	(1)%	177,811	8%	
<b>Total revenue</b>	<b>\$ 2,006,178</b>	<b>100%</b>	<b>(12)%</b>	<b>\$ 2,277,186</b>	<b>100%</b>	

\* The sum of the individual percentages does not equal the total due to rounding.

The year-to-year decrease in total revenue in the three- and nine-month periods ended August 4, 2012 was primarily the result of a broad-based decrease in demand across all product categories.

### Revenue Trends by Geographic Region

During the second quarter of fiscal 2012, the Company revised its method for classifying revenue by geographic region to more accurately reflect the primary location of our customers' design activity for our products. Prior periods have been reclassified to align with this definition. In general, the prior classification method reflected the customers' manufacturing location or the distributors' stocking territory. No changes have been made to the Company's revenue recognition policy. Revenue by geographic region for the three- and nine-month periods ended August 4, 2012 and July 30, 2011 was as follows:

Region	Three Months Ended		\$ Change	% Change
	August 4, 2012	July 30, 2011		
United States	\$ 202,080	\$ 218,447	\$ (16,367)	(7)%
Rest of North and South America	25,268	33,816	(8,548)	(25)%
Europe	216,809	245,917	(29,108)	(12)%
Japan	87,169	96,730	(9,561)	(10)%
China	89,616	98,865	(9,249)	(9)%
Rest of Asia	62,084	64,127	(2,043)	(3)%
<b>Total revenue</b>	<b>\$ 683,026</b>	<b>\$ 757,902</b>	<b>\$ (74,876)</b>	<b>(10)%</b>

Region	Nine Months Ended		\$ Change	% Change
	August 4, 2012	July 30, 2011		
United States	\$ 590,155	\$ 659,094	\$ (68,939)	(10)%
Rest of North and South America	87,533	112,032	(24,499)	(22)%
Europe	640,102	738,718	(98,616)	(13)%
Japan	254,195	292,010	(37,815)	(13)%
China	254,597	282,993	(28,396)	(10)%
Rest of Asia	179,596	192,339	(12,743)	(7)%
<b>Total revenue</b>	<b>\$ 2,006,178</b>	<b>\$ 2,277,186</b>	<b>\$ (271,008)</b>	<b>(12)%</b>

In the three- and nine-month periods ended August 4, 2012 and July 30, 2011, the predominant countries comprising "Rest of North and South America" are Canada and Mexico; the predominant countries comprising "Europe" are Germany, Sweden, France and the United Kingdom; and the predominant countries comprising "Rest of Asia" are Taiwan and South Korea.

Sales decreased in all regions in the three and nine months ended August 4, 2012 as compared to the same periods of fiscal 2011 as a result of a broad-based decrease in demand.

### Gross Margin

	Three Months Ended				Nine Months Ended			
	August 4, 2012	July 30, 2011	\$ Change	% Change	August 4, 2012	July 30, 2011	\$ Change	% Change
Gross margin	\$ 447,874	\$ 509,640	\$ (61,766)	(12)%	\$ 1,297,719	\$ 1,526,027	\$ (228,308)	(15)%
Gross margin %	65.6%	67.2%			64.7%	67.0%		

Gross margin percentage was lower by 160 and 230 basis points in the three and nine months ended August 4, 2012, respectively, as compared to the three and nine months ended July 30, 2011, respectively, primarily as a result of decreased operating levels in our manufacturing facilities as well as a reduced percentage of sales of our products sold into the industrial automation and instrumentation sectors of the industrial end market and the wireless base station sector of the communications end market, which earn higher margins as compared to products sold into our other end market sectors.

## Research and Development (R&D)

	Three Months Ended				Nine Months Ended			
	August 4, 2012	July 30, 2011	\$ Change	% Change	August 4, 2012	July 30, 2011	\$ Change	% Change
R&D expenses	\$ 129,694	\$ 128,476	\$ 1,218	1%	\$ 381,609	\$ 381,681	\$ (72)	—%
R&D expenses as a % of revenue	19.0%	17.0%			19.0%	16.8%		

R&D expenses in the three months ended August 4, 2012 increased slightly as compared to the same period of fiscal 2011 as a result of annual salary increases that became effective during the latter half of the second quarter of fiscal 2012 and a general increase in spending, partially offset by lower variable compensation expense, which is linked to our overall profitability and revenue growth.

R&D expenses in the nine months ended August 4, 2012 remained flat as compared to the same period of fiscal 2011 as lower variable compensation expense, which linked to our overall profitability and revenue growth, was offset by annual salary increases that became effective during the latter half of the second quarter of fiscal 2012 and an additional week of operations in the first quarter of fiscal 2012.

R&D expenses as a percentage of revenue will fluctuate from year-to-year depending on the amount of revenue and the success of new product development efforts, which we view as critical to our future growth. We have hundreds of R&D projects underway, none of which we believe are material on an individual basis. We expect to continue the development of innovative technologies and processes for new products. We believe that a continued commitment to R&D is essential to maintain product leadership with our existing products as well as to provide innovative new product offerings, and therefore, we expect to continue to make significant R&D investments in the future.

## Selling, Marketing, General and Administrative (SMG&A)

	Three Months Ended				Nine Months Ended			
	August 4, 2012	July 30, 2011	\$ Change	% Change	August 4, 2012	July 30, 2011	\$ Change	% Change
SMG&A expenses	\$ 99,873	\$ 102,323	\$ (2,450)	(2)%	\$ 298,910	\$ 307,613	\$ (8,703)	(3)%
SMG&A expenses as a % of revenue	14.6%	13.5%			14.9%	13.5%		

SMG&A expenses in the three and nine months ended August 4, 2012 decreased as compared to the same periods of fiscal 2011 as lower variable compensation expense, which is linked to our overall profitability and revenue growth, was partially offset by annual salary increases that became effective during the latter half of the second quarter of fiscal 2012.

## Special Charges – Reduction of Operating Costs

We monitor global macroeconomic conditions on an ongoing basis, and continue to assess opportunities for improved operational effectiveness and efficiency and better alignment of expenses with revenues. As a result of these assessments, we have undertaken various restructuring actions over the past several years. These reductions relating to ongoing actions are described below.

During fiscal 2008 through fiscal 2010, we recorded special charges of approximately \$43.3 million. These special charges included: \$39.1 million for severance and fringe benefit costs in accordance with our ongoing benefit plan or statutory requirements at foreign locations for 245 manufacturing employees and 470 engineering and SMG&A employees; \$2.1 million for lease obligation costs for facilities that we ceased using during the first quarter of fiscal 2009; \$0.8 million for the write-off of property, plant and equipment; \$0.5 million for contract termination costs; \$0.3 million for clean-up and closure costs that we expensed as incurred; and \$0.5 million related to the impairment of intellectual property. This action resulted in annual cost savings of approximately \$52.0 million per year. We have terminated the employment of all employees associated with these actions.

During fiscal 2011, we recorded a special charge of approximately \$2.2 million. This special charge was for severance and fringe benefit costs in accordance with our ongoing benefit plan or statutory requirements at foreign locations for 25 engineering and SMG&A employees. As of August 4, 2012, we employed 2 of the 25 employees included in this cost reduction action. These employees must continue to be employed by us until their employment is involuntarily terminated in order to

receive the severance benefit. We estimate this action will result in annual savings in SMG&A expenses of approximately \$4.0 million once fully implemented.

During the first quarter of fiscal 2012, we recorded a special charge of approximately \$2.6 million. The special charge included \$2.5 million for severance and fringe benefit costs in accordance with our ongoing benefit plan or statutory requirements at foreign locations for 34 manufacturing, engineering and SMG&A employees and \$0.1 million for contract termination costs. We terminated the employment of all employees associated with these actions, and we are paying amounts owed to them as income continuance. We estimate this action will result in annual savings in SMG&A expenses of approximately \$4.0 million.

During the third quarter of fiscal 2012, we recorded a special charge of approximately \$5.8 million. The special charge included \$5.4 million for severance and fringe benefits costs in accordance with our ongoing benefit plan or statutory requirements at foreign locations for 61 manufacturing, engineering and SMG&A employees; \$0.2 million for lease obligation costs for facilities that we ceased using during the third quarter of fiscal 2012 and \$0.2 million for the write-off of property, plant and equipment. As of August 4, 2012, we employed 25 of the 61 employees included in this cost reduction action. These employees must continue to be employed by us until their employment is involuntarily terminated in order to receive the severance benefit. We estimate this action will result in annual savings in SMG&A expenses of approximately \$8.0 million once fully implemented.

#### Operating Income from Continuing Operations

	Three Months Ended				Nine Months Ended			
	August 4, 2012	July 30, 2011	\$ Change	% Change	August 4, 2012	July 30, 2011	\$ Change	% Change
Operating income from continuing operations	\$ 212,471	\$ 278,841	\$ (66,370)	(24)%	\$ 608,769	\$ 836,733	\$ (227,964)	(27)%
Operating income from continuing operations as a % of revenue	31.1%	36.8%			30.3%	36.7%		

The year-over-year decrease in operating income from continuing operations in the third quarter of fiscal 2012 was primarily the result of a decrease in revenue of \$74.9 million, a 160 basis point decrease in gross margin percentage, \$5.8 million in special charges recorded in the third quarter of fiscal 2012 as more fully described above under the heading *Special Charges—Reduction of Operating Costs*. These reductions in operating income from continuing operations were partially offset by a decrease in SMG&A expenses as more fully described above under the heading *Selling, Marketing, General and Administrative*.

The year-over-year decrease in operating income from continuing operations in the nine months ended August 4, 2012 was primarily the result of a decrease in revenue of \$271.0 million, a 230 basis point decrease in gross margin percentage and \$8.4 million in special charges recorded in the first nine months of fiscal 2012 as more fully described above under the heading *Special Charges—Reduction of Operating Costs*. These reductions in operating income from continuing operations were partially offset by a decrease in SMG&A expenses as more fully described above under the heading *Selling, Marketing, General and Administrative*.

#### Nonoperating (Income) Expense

	Three Months Ended			Nine Months Ended		
	August 4, 2012	July 30, 2011	\$ Change	August 4, 2012	July 30, 2011	\$ Change
Interest expense	\$ 6,459	\$ 6,159	\$ 300	\$ 20,031	\$ 13,067	\$ 6,964
Interest income	(3,506)	(2,395)	(1,111)	(10,821)	(6,877)	(3,944)
Other, net	49	206	(157)	(1,450)	96	(1,546)
Total nonoperating (income) expense	\$ 3,002	\$ 3,970	\$ (968)	\$ 7,760	\$ 6,286	\$ 1,474

The year-over-year change in nonoperating (income) expense in the third quarter of fiscal 2012 was primarily the result of an increase in interest income as a result of higher interest rates earned on our investments in the third quarter of fiscal 2012

as compared to the third quarter of fiscal 2011.

The year-over-year increase in interest expense in the nine months ended August 4, 2012 was primarily a result of our issuance of \$375.0 million aggregate principal amount of 3.0% senior unsecured notes on April 4, 2011 and the \$145.0 million term loan facility we entered into through a wholly owned subsidiary in December 2010, and to a lesser extent the impact of the termination of our interest rate swap agreement more fully described below under the heading *Debt*. The increases were partially offset by an increase in interest income due to higher interest rates earned on our investments and the investment of higher cash balances in the first nine months of fiscal 2012 as compared to the first nine months of fiscal 2011, and an increase in other income as a result of the gain from the sale of other investments in the second quarter of fiscal 2012.

#### *Provision for Income Taxes*

	Three Months Ended			Nine Months Ended		
	August 4, 2012	July 30, 2011	\$ Change	August 4, 2012	July 30, 2011	\$ Change
Provision for income taxes	\$ 39,701	\$ 54,936	\$ (15,235)	\$ 128,960	\$ 153,080	\$ (24,120)
Effective income tax rate	19.0%	20.0%		21.5%	18.4%	

Our effective tax rate reflects the applicable tax rate in effect in the various tax jurisdictions around the world where our income is earned.

The decrease in our effective tax rate for the third quarter of fiscal 2012 compared to the third quarter of fiscal 2011 was primarily due to the impact of several discrete tax items which resulted in lowering our effective tax rate by approximately 2%. These items consisted of a tax benefit related to the release of a tax reserve for an expired tax year, a tax benefit as a result of a special charge taken in the third quarter of fiscal 2012, a majority of which provided a tax benefit at the higher U.S. tax rate, and the reversal of \$1.5 million of tax expense previously recorded in the first six months of fiscal 2012 related to the write-off of deferred tax assets for share-based compensation. Our effective tax rate for the third quarter of fiscal 2011 included a benefit related to the application of the U.S. federal research and development tax credit that resulted in lowering our effective tax rate by approximately 1%. This credit expired in December 2011 and therefore was not available in the third quarter of fiscal 2012.

The increase in our effective tax rate for the first nine months of fiscal 2012 compared to the first nine months of fiscal 2011 was primarily due to the impact of several discrete tax items. The provision for income taxes for the first nine months of fiscal 2011 included favorable discrete tax items which resulted in lowering our effective tax rate by approximately 3%. These items consisted of \$6 million related to the reinstatement of the U.S. federal research and development tax credit in December 2010 retroactive to January 1, 2010, a \$7 million reduction in the state tax credits valuation reserve, a \$0.5 million tax benefit from the increase in Irish deferred taxes as a result of the increase in the Irish manufacturing tax rate from 10% to 12.5% and a net \$10.8 million tax benefit related to the settlement with the Appellate Division of the Internal Revenue Service of certain tax matters for the fiscal 2004 through fiscal 2007 tax years. In addition, our effective tax rate for the first nine months of fiscal 2011 included a benefit related to the application of the U.S. federal research and development tax credit. This credit expired in December 2011 and therefore was only available for two months of the first nine months of fiscal 2012. The provision for income taxes for the third quarter of fiscal 2012 did not include the benefit of these discrete tax items, but rather included the benefit of discrete tax items which resulted in lowering our effective tax rate by approximately 1%. These items consisted of a tax benefit related to the release of a tax reserve for an expired tax year and a tax benefit as a result of a special charge taken in the third quarter of fiscal 2012, a majority of which provided a tax benefit at the higher U.S. tax rate.

We expect our effective tax rate, excluding discrete tax items, to be approximately 22.3% for the remainder of fiscal 2012.

*Income from Continuing Operations, net of tax*

	Three Months Ended				Nine Months Ended			
	August 4, 2012	July 30, 2011	\$ Change	% Change	August 4, 2012	July 30, 2011	\$ Change	% Change
Income from continuing operations, net of tax	\$ 169,768	\$ 219,935	\$ (50,167)	(23)%	\$ 472,049	\$ 677,367	\$ (205,318)	(30)%
Income from continuing operations, net of tax, as a % of revenue	24.9%	29.0%			23.5%	29.7%		
Diluted EPS from continuing operations	\$ 0.56	\$ 0.71			\$ 1.54	\$ 2.19		

The year-over-year decrease in net income from continuing operations in the third quarter of fiscal 2012 was primarily a result of the \$66.4 million decrease in operating income from continuing operations offset by a lower provision for income taxes in the third quarter of 2012.

The year-over-year decrease in net income from continuing operations in the nine months ended August 4, 2012 was primarily a result of the \$228.0 million decrease in operating income from continuing operations offset by a lower provision for income taxes in the first nine months of fiscal 2012.

*Discontinued Operations*

	Nine Months Ended	
	July 30, 2011	
Gain on sale of discontinued operations, net of tax	\$	6,500
Diluted EPS from discontinued operations	\$	0.02

We sold our Baseband Chipset Business to MediaTek Inc. during the first quarter of fiscal 2008. Accordingly, we have presented the results of the operations of this business as discontinued operations within our condensed consolidated financial statements. In fiscal 2011, additional proceeds of \$10.0 million were released from escrow and \$6.5 million net of tax was recorded as additional gain from the sale of discontinued operations. We do not expect any additional proceeds from this sale.

*Outlook*

The following statements are based on current expectations. These statements are forward-looking and our actual results may differ materially as a result of, among other things, the important factors contained in Item 1A. Risk Factors in this Quarterly Report on Form 10-Q. Unless specifically mentioned, these statements do not give effect to the potential impact of any mergers, acquisitions, divestitures, or business combinations that may be announced or closed after the date of filing this report. These statements supersede all prior statements regarding our business outlook made by us.

We are planning for revenue in the fourth quarter of fiscal 2012 to be in the range of approximately \$685 million to \$715 million. Our plan is for gross margin for the fourth quarter of fiscal 2012 to be approximately 65% and for operating expenses to be approximately \$231 million. As a result, we are planning for diluted earnings per share from continuing operations to be in the range of \$0.54 to \$0.60 in the fourth quarter of fiscal 2012.

**Liquidity and Capital Resources**

At August 4, 2012, our principal source of liquidity was \$3,765.0 million of cash and cash equivalents and short-term investments, of which approximately \$1,007.3 million was held in the United States. The balance of our cash and cash equivalents and short-term investments was held outside the United States in various foreign subsidiaries. As we intend to reinvest certain of our foreign earnings indefinitely, this cash held outside the United States is not available to meet certain of our cash requirements in the United States, including for cash dividends and common stock repurchases. Our cash and cash equivalents consist of highly liquid investments with maturities of three months or less at the time of acquisition and our short-term investments consist primarily of liquid money market funds and corporate obligations, such as commercial paper and

floating rate notes, bonds and bank time deposits. We maintain these balances with high credit quality counterparties, continually monitor the amount of credit exposure to any one issuer and diversify our investments in order to minimize our credit risk.

We believe that our existing sources of liquidity and cash expected to be generated from future operations, together with existing and anticipated available long-term financing, will be sufficient to fund operations, capital expenditures, research and development efforts, dividend payments (if any) and repurchases of our stock (if any) under our stock repurchase program in the immediate future and for at least the next twelve months.

	Nine Months Ended		\$ Change	% Change
	August 4, 2012	July 30, 2011		
Net cash provided by operating activities	\$ 578,495	\$ 670,369	\$ (91,874)	(14)%
Net cash provided by operations as a % of Revenue	28.8%	29.4%		

At August 4, 2012, cash and cash equivalents totaled \$462.1 million. The primary sources of funds for the first nine months of fiscal 2012 were net cash generated from operating activities of \$578.5 million. In addition, we received \$110.7 million in net proceeds from employee stock option exercises. The principal uses of funds for the first nine months of fiscal 2012 were the repurchase of approximately 3.7 million shares of our common stock for an aggregate of \$139.7 million, dividend payments of \$253.3 million, principal payments of \$22.9 million related to our \$145 million term loan facility, additions to property, plant and equipment of \$94.7 million and payments of \$24.2 million, net of cash acquired, for the acquisition of Multigig. In addition, we paid \$1,115.0 million for the net purchase of available-for-sale short term investments. These factors contributed to the net decrease in cash and cash equivalents of \$943.0 million in the first nine months of fiscal 2012.

#### Working Capital

	August 4, 2012	October 29, 2011	\$ Change	% Change
	Accounts receivable, net	\$ 345,795	\$ 348,416	\$ (2,621)
Days sales outstanding	46	44		
Inventory	\$ 312,079	\$ 295,081	\$ 16,998	6 %
Days cost of sales in inventory	121	105		

The decrease in accounts receivable was primarily the result of lower revenue in the final month of the third quarter of fiscal 2012 compared to the final month of the fourth quarter of fiscal 2011. Days sales outstanding increased as a result of higher product shipments made to our distributors in the final month of the third quarter of fiscal 2012 compared to the final month of the fourth quarter of fiscal 2011.

Inventory as of August 4, 2012 increased as compared to the end of the fourth quarter of fiscal 2011 as a result of an increase in manufacturing production to support anticipated higher sales demand. Days cost of sales in inventory increased primarily due to lower manufacturing costs which resulted in cost of sales decreasing 8% from the fourth quarter of fiscal 2011 to the third quarter of fiscal 2012 while inventory levels increased by 6% for the same period.

Current liabilities decreased to \$508.5 million at August 4, 2012, a decrease of \$16.5 million, or 3%, from \$525.0 million at the end of fiscal 2011. This decrease was primarily due to a decrease in accrued liabilities as a result of lower variable compensation expense accruals which were partially offset by an increase in deferred income on shipments to distributors, net, which is more fully described below.

As of August 4, 2012 and October 29, 2011, we had gross deferred revenue of \$312.0 million and \$309.6 million, respectively, and gross deferred cost of sales of \$65.3 million and \$76.4 million, respectively. Deferred income on shipments to distributors increased in the first nine months of fiscal 2012 as a result of our shipments to our distributors exceeding the distributors' sales to their customers during the same time period and a mix shift in favor of higher margin products in the channel. Sales to distributors are made under agreements that allow distributors to receive price-adjustment credits and to return qualifying products for credit, as determined by us, in order to reduce the amounts of slow-moving, discontinued or obsolete product from their inventory. Given the uncertainties associated with the levels of price-adjustment credits to be granted to distributors, the sales price to the distributors is not fixed or determinable until the distributors resell the products to their customers. Therefore, we defer revenue recognition from sales to distributors until the distributors have sold the products

to their customers. The amount of price-adjustments is dependent on future overall market conditions, and therefore the levels of these adjustments could fluctuate significantly from period to period. To the extent that we experience a significant increase in the amount of credits we issue to our distributors, there could be a material impact on the ultimate revenue and gross margin recognized relating to these transactions.

#### *Debt*

As of August 4, 2012, we had \$857.0 million in debt outstanding, of which \$14.5 million was current. Our debt obligations consist of the following:

##### *\$375.0 million aggregate principal amount of 5.0% senior unsecured notes*

On June 30, 2009, we issued \$375.0 million aggregate principal amount of 5.0% senior unsecured notes due July 1, 2014 (the 5.0% Notes) with semi-annual fixed interest payments due on January 1 and July 1 of each year, commencing January 1, 2010. We swapped the fixed interest portion of these notes for a variable interest rate based on the three-month LIBOR plus 2.05%. The variable interest payments based on the variable annual rate are payable quarterly. The LIBOR based rate is set quarterly three months prior to the date of the interest payment. In the second quarter of fiscal 2012, we terminated the interest rate swap agreement. We received \$19.8 million in cash proceeds from the swap termination, which included \$1.3 million in accrued interest. The proceeds, net of interest received, are disclosed in cash flows from financing activities in the consolidated statements of cash flows. As a result of the termination, the carrying value of the 5.0% Notes was adjusted for the change in fair value of the interest component of the debt up to the date of the termination of the swap in an amount equal to the fair value of the swap, and will be amortized to earnings as a reduction of interest expense over the remaining life of the debt. This amortization is reflected in the consolidated statements of cash flows within operating activities.

##### *\$145.0 million term loan facility*

On December 22, 2010, Analog Devices Holdings B.V., our wholly owned subsidiary, entered into a credit agreement with Bank of America, N.A., London Branch as administrative agent. The credit agreement provides for a \$145.0 million term loan facility, which matures on December 22, 2013. We have guaranteed the borrower's obligations. The terms of the agreement provide for a three-year principal amortization schedule with \$3.6 million payable quarterly every March, June, September and December with the balance payable upon the maturity date.

##### *\$375.0 million aggregate principal amount of 3.0% senior unsecured notes*

On April 4, 2011, we issued \$375.0 million aggregate principal amount of 3.0% senior unsecured notes due April 15, 2016 (the 3.0% Notes) with semi-annual fixed interest payments due on April 15 and October 15 of each year, commencing October 15, 2011.

The indenture governing the 5.0% Notes and 3.0% Notes contains covenants that may limit our ability to: incur, create, assume or guarantee any debt for borrowed money secured by a lien upon a principal property; enter into sale and lease-back transactions with respect to a principal property; and consolidate with or merge into, or transfer or lease all or substantially all of our assets to, any other party. As of August 4, 2012, we were compliant with these covenants. The terms of the \$145.0 million term loan facility include limitations on subsidiary indebtedness and on liens against our assets and the assets of our subsidiaries, and also include financial covenants that require us to maintain a minimum interest coverage ratio and not exceed a maximum leverage ratio. As of August 4, 2012, we were compliant with these covenants. See Note 13, Debt, of the Notes to our Condensed Consolidated Financial Statements contained in Item 1 of this Quarterly Report on Form 10-Q for further information on our outstanding debt.

##### *Revolving Credit Facility*

We have a five-year \$165.0 million unsecured revolving credit facility that expires in May 2013. To date, we have not borrowed under this credit facility but we may borrow in the future and use the proceeds for support of commercial paper issuance, stock repurchases, dividend payments, acquisitions, capital expenditures, working capital and other lawful corporate purposes. The terms of this facility also include financial covenants that require us to maintain a minimum interest coverage ratio and not exceed a maximum leverage ratio. As of August 4, 2012, we were compliant with these covenants.

##### *Stock Repurchase Program*

Our common stock repurchase program has been in place since August 2004. In the aggregate, our Board of Directors has authorized us to repurchase \$5.0 billion of our common stock under the program. Under the program, we may repurchase outstanding shares of our common stock from time to time in the open market and through privately negotiated transactions.

Unless terminated earlier by resolution of our Board of Directors, the repurchase program will expire when we have repurchased all shares authorized under the program. As of August 4, 2012, we had repurchased a total of approximately 128.6 million shares of our common stock for approximately \$4,418.2 million under this program. As of August 4, 2012, an additional \$581.8 million worth of shares remains available for repurchase under the current authorized program. The repurchased shares are held as authorized but unissued shares of common stock. We also from time to time repurchase shares in settlement of employee tax withholding obligations due upon the vesting of restricted stock units or the exercise of stock options, or in certain limited circumstances to satisfy the exercise price of options granted to our employees under our equity compensation plans. Any future common stock repurchases will be based on several factors, including our financial performance, outlook, liquidity and the amount of cash we have available in the United States.

#### Capital Expenditures

Net additions to property, plant and equipment were \$94.7 million in the first nine months of fiscal 2012 and were funded with a combination of cash on hand and cash generated from operations. We expect capital expenditures to be in the range of approximately \$135 million to \$140 million in fiscal 2012 to be used primarily in our manufacturing facilities and to be funded with a combination of cash on hand and cash generated from operations.

#### Dividends

On August 20, 2012, our Board of Directors declared a cash dividend of \$0.30 per outstanding share of common stock. The dividend will be paid on September 12, 2012 to all shareholders of record at the close of business on August 31, 2012 and is expected to total approximately \$89.7 million. We currently expect quarterly dividends to continue at \$0.30 per share, although they remain subject to determination and declaration by our Board of Directors. The payment of future dividends, if any, will be based on several factors, including our financial performance, outlook and liquidity.

#### Contractual Obligations

In the second quarter of fiscal 2012, we terminated our interest rate swap agreement related to our outstanding 5.0% senior unsecured notes. As a result of the termination, the amounts previously reflected as “payments due under interest rate swap agreements” in the contractual obligations table contained in the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of our Annual Report on Form 10-K for the fiscal year ended October 29, 2011 are no longer due.

During the first quarter of fiscal 2012, we entered into non-cancelable license obligations to providers of electronic design automation software and software maintenance used in the development of our products. The following amounts will be due under the agreements and were not previously reflected in the contractual obligations table contained in the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of our Annual Report on Form 10-K for the fiscal year ended October 29, 2011:

(thousands)	Payment due by period				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
Contractual obligations:					
Operating leases	\$ 44,910	\$ 12,887	\$ 25,882	\$ 6,141	\$ —

There have not been any other material changes during the first nine months of fiscal 2012 to the amounts presented in the table summarizing our contractual obligations included in our Annual Report on Form 10-K for the fiscal year ended October 29, 2011.

#### New Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board (FASB) that are adopted by us as of the specified effective date. Unless otherwise discussed, management believes that the impact of recently issued standards will not have a material impact on our future financial condition and results of operations. See Note 18, New Accounting Pronouncements, of the Notes to our Condensed Consolidated Financial Statements contained in Item 1 of this Quarterly Report on Form 10-Q for a description of recently issued and adopted accounting pronouncements, including the dates of adoption and impact on our historical financial condition and results of operations.

#### Critical Accounting Policies and Estimates

There were no material changes in the first nine months of fiscal 2012 to the information provided under the heading

“Critical Accounting Policies and Estimates” included in our Annual Report on Form 10-K for the fiscal year ended October 29, 2011.

### **ITEM 3. Quantitative and Qualitative Disclosures About Market Risk**

In the second quarter of fiscal 2012, we terminated our interest rate swap agreement, which converted the 5.0% fixed interest rate on our \$375.0 million 5.0% senior unsecured notes to a variable interest rate based on the three-month LIBOR plus 2.05%. As a result of the termination, we are no longer exposed to interest rate risk associated with the swap.

There were no other material changes in the first nine months of fiscal 2012 to the information provided under Item 7A. “Quantitative and Qualitative Disclosures about Market Risk” set forth in our Annual Report on Form 10-K for the year ended October 29, 2011.

### **ITEM 4. Controls and Procedures**

(a) *Evaluation of Disclosure Controls and Procedures.* Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of August 4, 2012. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of August 4, 2012, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

(b) *Changes in Internal Control over Financial Reporting.* No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the quarter ended August 4, 2012, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## **PART II — OTHER INFORMATION**

### **ITEM 1A. Risk Factors**

Set forth below and elsewhere in this report and in other documents we file with the SEC are descriptions of the risks and uncertainties that could cause our actual results to differ materially from the results contemplated by the forward-looking statements contained in this report. The description below includes any material changes to and supersedes the description of the risk factors affecting our business previously discussed in Part I, Item 1A “Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended October 29, 2011.

*Disruptions in global credit and financial markets could materially and adversely affect our business and results of operations.*

There is significant uncertainty regarding the stability of global credit and financial markets, exacerbated by the ongoing European debt crisis. These economic uncertainties may lead consumers and businesses to postpone spending, which may cause our customers to cancel, decrease or delay their existing and future orders for our products and make it difficult for us to accurately forecast and plan our future business activities. Uncertainty regarding the future stability of the Euro Zone could cause the value of the Euro to deteriorate, thus reducing the purchasing power of our European customers. In addition, financial difficulties experienced by our suppliers or distributors could result in product delays, increased accounts receivable defaults and inventory challenges. During the past few years, many governments adopted stimulus or spending programs designed to ease the economic impact of the crisis. Some of our businesses benefited from these stimulus programs and there can be no assurance that such programs will continue in the future. If economic conditions deteriorate, we may record additional charges relating to restructuring costs or the impairment of assets and our business and results of operations could be materially and adversely affected.

*Our future revenue, gross margins, operating results and net income are difficult to predict and may materially fluctuate.*

Our future revenue, gross margins, operating results and net income are difficult to predict and may be materially affected by a number of factors, including:

- the effects of adverse economic conditions in the markets in which we sell our products;
- changes in customer demand for our products and for end products that incorporate our products;
- our ability to effectively manage our cost structure in both the short term and over a longer duration;
- the timing of new product announcements or introductions by us, our customers or our competitors;
- competitive pricing pressures;
- fluctuations in manufacturing yields, adequate availability of wafers and other raw materials, and manufacturing, assembly and test capacity;
- the ability of our third-party suppliers, subcontractors and manufacturers to supply us with sufficient quantities of raw materials, products and/or components;
- any significant decline in our backlog;
- the timing, delay or cancellation of significant customer orders and our ability to manage inventory;
- our ability to hire, retain and motivate adequate numbers of engineers and other qualified employees to meet the demands of our customers;
- changes in geographic, product or customer mix;
- our ability to utilize our manufacturing facilities at efficient levels;
- potential significant litigation-related costs;
- the difficulties inherent in forecasting future operating expense levels, including with respect to costs associated with labor, utilities, transportation and raw materials;
- the costs related to compliance with increasing worldwide environmental regulations;
- changes in our effective tax rates in the United States, Ireland or worldwide; and
- the effects of public health emergencies, natural disasters, widespread travel disruptions, security risks, terrorist activities, international conflicts and other events beyond our control.

In addition, the semiconductor market has historically been cyclical and subject to significant economic upturns and downturns. Our business is subject to rapid technological changes and there can be no assurance (i) that products stocked in our inventory will not be rendered obsolete before we ship them, or (ii) that we will be able to produce products in a timely fashion to accommodate changing customer demand. As a result of these and other factors, there can be no assurance that we will not experience material fluctuations in future revenue, gross margins, operating results and net income on a quarterly or annual basis. In addition, if our revenue, gross margins, operating results and net income do not meet the expectations of securities analysts or investors, the market price of our common stock may decline.

*Changes in our effective tax rate may impact our results of operations.*

A number of factors may increase our future effective tax rate, including: increases in tax rates in various jurisdictions; variation in the jurisdictions in which profits are earned and taxed; the resolution of issues arising from tax audits with various tax authorities; changes in the valuation of our deferred tax assets and liabilities; adjustments to income taxes upon finalization of various tax returns; increases in expenses not deductible for tax purposes, including executive compensation subject to the limitations of Section 162(m) of the Internal Revenue Code and amortization of assets acquired in connection with strategic transactions; the lack of sufficient excess tax benefits (credits) in our additional paid in capital (APIC) pool in situations where our realized tax deductions for certain stock-based compensation awards are less than those originally anticipated; changes in available tax credits; and changes in tax laws or the interpretation of such tax laws. Any significant increase in our future effective tax rates could adversely impact our net income during future periods.

*Long-term contracts are not typical for us and reductions, cancellations or delays in orders for our products could adversely affect our operating results.*

We typically do not have long-term sales contracts with our customers. In certain markets where end-user demand may

be particularly volatile and difficult to predict, some customers place orders that require us to manufacture product and have it available for shipment, even though the customer is unwilling to make a binding commitment to purchase all, or even any, of the product. In other instances, we manufacture product based on forecasts of customer demands. As a result, we may incur inventory and manufacturing costs in advance of anticipated sales and are subject to the risk of cancellations of orders, leading to a sharp reduction of sales and backlog. Further, orders or forecasts may be for products that meet the customer's unique requirements so that those cancelled or unrealized orders would, in addition, result in an inventory of unsaleable products, causing potential inventory write-offs. As a result of lengthy manufacturing cycles for certain of the products that are subject to these uncertainties, the amount of unsaleable product could be substantial. Incorrect forecasts, or reductions, cancellations or delays in orders for our products could adversely affect our operating results.

*Our future success depends upon our ability to continue to innovate, improve our products, develop and market new products, and identify and enter new markets.*

Our success significantly depends on our continued ability to improve our products and develop and market innovative new products. Product development, innovation and enhancement is often a complex, time-consuming and costly process involving significant investment in research and development, with no assurance of return on investment. There can be no assurance that we will be able to develop and introduce new and improved products in a timely or efficient manner or that new and improved products, if developed, will achieve market acceptance. Our products generally must conform to various evolving and sometimes competing industry standards, which may adversely affect our ability to compete in certain markets or require us to incur significant costs. In addition, our customers generally impose very high quality and reliability standards on our products, which often change and may be difficult or costly to satisfy. Any inability to satisfy customer quality standards or comply with industry standards and technical requirements may adversely affect demand for our products and our results of operations. In addition, our growth is dependent on our continued ability to identify and penetrate new markets where we have limited experience and competition is intense. Also, some of our customers in these markets are less established, which could subject us to increased credit risk. There can be no assurance that the markets we serve will grow in the future, that our existing and new products will meet the requirements of these markets, that our products will achieve customer acceptance in these markets, that competitors will not force price reductions or take market share from us, or that we can achieve or maintain adequate gross margins or profits in these markets. Furthermore, a decline in demand in one or several of our end-user markets could have a material adverse effect on the demand for our products and our results of operations.

*We may not be able to compete successfully in markets within the semiconductor industry in the future.*

We face intense technological and pricing competition in the semiconductor industry, and we expect this competition to increase in the future, including from companies located outside the United States. Many companies have sufficient financial, manufacturing, technical, sales and marketing resources to develop and market products that compete with our products. Some of our competitors may have more advantageous supply or development relationships with our current and potential customers or suppliers. Our competitors also include emerging companies selling specialized products in markets we serve. Competition is generally based on design and quality of products, product performance, features and functionality, and product pricing, availability and capacity, with the relative importance of these factors varying among products, markets and customers. Existing or new competitors may develop products or technologies that more effectively address the demands of our customers and markets with enhanced performance, features and functionality, lower power requirements, greater levels of integration or lower cost. Increased competition in certain markets has resulted in and may continue to result in declining average selling prices, reduced gross margins and loss of market share in those markets. There can be no assurance that we will be able to compete successfully in the future against existing or new competitors, or that our operating results will not be adversely affected by increased competition.

*We rely on third-party suppliers, subcontractors and manufacturers for some industry-standard wafers, manufacturing processes and assembly and test services, and generally cannot control their availability or conditions of supply.*

We rely, and plan to continue to rely, on suppliers, assembly and test subcontractors, and third-party wafer fabricators to supply most of our wafers that can be manufactured using industry-standard submicron processes. This reliance involves several risks, including reduced control over availability, capacity utilization, delivery schedules, manufacturing yields, and costs. We currently source approximately 50% of our wafer requirements annually from third-party wafer fabrication foundries, primarily Taiwan Semiconductor Manufacturing Company, or TSMC. In addition, these suppliers often provide manufacturing services to our competitors and therefore periods of increased industry demand may result in capacity constraints. In certain instances, the third-party supplier is the sole source of highly specialized processing services. If our suppliers are unable or unwilling to manufacture and deliver components to us on the time schedule and of the quality or quantity that we require or provide us with required manufacturing processes, we may be forced to seek to engage additional or replacement suppliers, which could result in additional expenses and delays in product development or shipment of product to our customers. If replacement suppliers or manufacturing processes are not available, we may also experience delays in product development or

shipment which could, in turn, result in the temporary or permanent loss of customers.

*The markets for semiconductor products are cyclical, and increased production may lead to overcapacity and lower prices, and conversely, we may not be able to satisfy unexpected demand for our products.*

The cyclical nature of the semiconductor industry has resulted in periods when demand for our products has increased or decreased rapidly. If we expand our operations and workforce too rapidly or procure excessive resources in anticipation of increased demand for our products, and that demand does not materialize at the pace at which we expect, or declines, or if we overbuild inventory in a period of decreased demand, our operating results may be adversely affected as a result of increased operating expenses, reduced margins, underutilization of capacity or asset impairment charges. These capacity expansions by us and other semiconductor manufacturers could also lead to overcapacity in our target markets which could lead to price erosion that would adversely impact our operating results. Conversely, during periods of rapid increases in demand, our available capacity may not be sufficient to satisfy the demand. In addition, we may not be able to expand our workforce and operations in a sufficiently timely manner, procure adequate resources and raw materials, or locate suitable third-party suppliers, to respond effectively to changes in demand for our existing products or to the demand for new products requested by our customers, and our current or future business could be materially and adversely affected.

*Our semiconductor products are complex and we may be subject to product warranty and indemnity claims, which could result in significant costs and damage to our reputation and adversely affect the market acceptance of our products.*

Semiconductor products are highly complex and may contain defects when they are first introduced or as new versions are developed. We generally warrant our products to our customers for one year from the date title passes from us. We invest significant resources in the testing of our products; however, if any of our products contain defects, we may be required to incur additional development and remediation costs, pursuant to warranty and indemnification provisions in our customer contracts and purchase orders. These problems may divert our technical and other resources from other product development efforts and could result in claims against us by our customers or others, including liability for costs associated with product recalls, which may adversely impact our operating results. We may also be subject to customer indemnity claims. Our customers have on occasion been sued, and may in the future be sued, by third parties alleging infringement of intellectual property rights, or damages resulting from use of our products. Those customers may seek indemnification from us under the terms and conditions of our sales contracts with them. In certain cases, our potential indemnification liability may be significant. If any of our products contains defects, or has reliability, quality or compatibility problems, our reputation may be damaged, which could make it more difficult for us to sell our products to existing and prospective customers and could adversely affect our operating results.

We have manufacturing processes that utilize a substantial amount of technology as the fabrication of integrated circuits is a highly complex and precise process. Minute impurities, contaminants in the manufacturing environment, difficulties in the fabrication process, defects in the masks used in the wafer manufacturing process, manufacturing equipment failures, wafer breakage or other factors can cause a substantial percentage of wafers to be rejected or numerous dice on each wafer to be nonfunctional. While we have significant expertise in semiconductor manufacturing, it is possible that some processes could become unstable. This instability could result in manufacturing delays and product shortages, which could have a material adverse effect on our operating results.

*We are involved in frequent litigation, including regarding intellectual property rights, which could be costly to bring or defend and could require us to redesign products or pay significant royalties.*

The semiconductor industry is characterized by frequent claims and litigation involving patent and other intellectual property rights, including claims arising under our contractual obligations to indemnify our customers. Other companies or individuals have obtained patents covering a variety of semiconductor designs and processes, and we might be required to obtain licenses under some of these patents or be precluded from making and selling infringing products, if those patents are found to be valid. From time to time, we receive claims from third parties asserting that our products or processes infringe their patents or other intellectual property rights. In the event a third party makes a valid intellectual property claim against us and a license is not available to us on commercially reasonable terms, or at all, we could be forced either to redesign or to stop production of products incorporating that intellectual property, and our operating results could be materially and adversely affected. Litigation may be necessary to enforce our patents or other of our intellectual property rights or to defend us against claims of infringement, and this litigation could be costly and divert the attention of our key personnel. We could be subject to warranty or product liability claims that could lead to significant costs and expenses as we defend those claims or pay damage awards. There can be no assurance that we are adequately insured to protect against all claims and potential liabilities. We may incur costs and expenses relating to a recall of our customers' products due to an alleged failure of components we supply. An adverse outcome in litigation could have a material adverse effect on our financial position or on our operating results or cash flows in the period in which the litigation is resolved.

*We may be unable to adequately protect our proprietary intellectual property rights, which may limit our ability to compete effectively.*

Our success depends, in part, on our ability to protect our intellectual property. We primarily rely on patent, mask work, copyright, trademark and trade secret laws, as well as nondisclosure agreements and other methods, to protect our proprietary technologies and processes. Despite our efforts to protect our intellectual property, it is possible that competitors or other unauthorized third parties may obtain, copy, use or disclose our technologies, products and processes. Moreover, the laws of foreign countries in which we design, manufacture, market and sell our products may afford little or no effective protection of our proprietary intellectual property. We may also be subject to security breaches caused by computer viruses, illegal break-ins or hacking, sabotage, acts of vandalism by third parties or terrorism. Our security measures or those of our third party service providers may not detect or prevent such security breaches. Any such compromise of our information security could result in unauthorized access to our confidential business or proprietary information.

There can be no assurance that the claims allowed in our issued patents will be sufficiently broad to protect our technology. In addition, any of our existing or future patents may be challenged, invalidated or circumvented. As such, any rights granted under these patents may not provide us with meaningful protection. We may not have foreign patents or pending applications corresponding to our U.S. patents and applications. Even if foreign patents are granted, effective enforcement in foreign countries may not be available. If our patents and mask works do not adequately protect our technology, our competitors may be able to offer products similar to ours. Our competitors may also be able to develop similar technology independently or design around our patents.

We generally enter into confidentiality agreements with our employees, consultants and strategic partners. We also try to control access to and distribution of our technologies, documentation and other proprietary information. Despite these efforts, internal or external parties may attempt to copy, disclose, obtain or use our products or technology without our authorization. Also, former employees may seek employment with our business partners, customers or competitors, and there can be no assurance that the confidential nature of our proprietary information will be maintained in the course of such future employment.

*If we do not retain our key personnel, our ability to execute our business strategy will be adversely affected.*

Our continued success depends to a significant extent upon the recruitment, retention and effective succession of our executive officers and key management and technical personnel, particularly our experienced engineers. The competition for these employees is intense. The loss of the services of one or more of our key personnel could have a material adverse effect on our operating results. In addition, there could be a material adverse effect on our business should the turnover rates for engineers and other key personnel increase significantly or if we are unable to continue to attract qualified personnel. We do not maintain any key person life insurance policy on any of our officers or employees.

*To remain competitive, we may need to acquire other companies, purchase or license technology from third parties, or enter into other strategic transactions in order to introduce new products or enhance our existing products.*

An element of our business strategy involves expansion through the acquisitions of businesses, assets, products or technologies that allow us to complement our existing product offerings, expand our market coverage, increase our engineering workforce or enhance our technological capabilities. We may not be able to find businesses that have the technology or resources we need and, if we find such businesses, we may not be able to purchase or license the technology or resources on commercially favorable terms or at all. Acquisitions and technology licenses are difficult to identify and complete for a number of reasons, including the cost of potential transactions, competition among prospective buyers and licensees, the need for regulatory approvals, and difficulties related to integration efforts. Both in the U.S. and abroad, governmental regulation of acquisitions has become more complex, increasing the costs and risks of undertaking significant acquisitions. In order to finance a potential transaction, we may need to raise additional funds by issuing securities or borrowing money. We may not be able to find financing on favorable terms, and the sale of our stock may result in the dilution of our existing shareholders or the issuance of securities with rights that are superior to the rights of our common shareholders.

Acquisitions also involve a number of risks, including:

- difficulty integrating acquired technologies, operations and personnel with our existing businesses;
- diversion of management attention in connection with both negotiating the acquisitions and integrating the assets;
- strain on managerial and operational resources as management tries to oversee larger operations;
- the future funding requirements for acquired companies, which may be significant;

- potential loss of key employees;
- exposure to unforeseen liabilities of acquired companies; and
- increased risk of costly and time-consuming litigation.

If we are unable to successfully address these risks, we may not realize some or all of the expected benefits of the acquisition, which may have an adverse effect on our business plans and operating results.

*We rely on supplies, services and manufacturing capacity located in geologically unstable areas, which could affect our ability to produce products.*

We, like many companies in the semiconductor industry, rely on supplies, services, internal manufacturing capacity, wafer fabrication foundries and other sub-contractors in geologically unstable locations around the world. This reliance involves risks associated with the impact of earthquakes on us and the semiconductor industry, including temporary loss of capacity, availability and cost of key raw materials, utilities and equipment and availability of key services, including transport of our products worldwide. For example, in March 2011, a severe earthquake and tsunami hit Japan, which together with resulting damage to certain nuclear power plants created widespread destruction and economic uncertainty in that region. Our fiscal 2011 revenue in Japan decreased by approximately 9% year over year, primarily due to lower sales activity in the consumer end market sector in Japan as a result of the earthquake and tsunami. In addition, recent flooding in Thailand and the Philippines had disruptive effects on local semiconductor-related businesses. Any prolonged inability to utilize one of our manufacturing facilities, or those of our subcontractors or third-party wafer fabrication foundries, as a result of fire, flood, natural disaster, unavailability of utilities or otherwise, could result in a temporary or permanent loss of customers for affected products, which could have a material adverse effect on our results of operations and financial condition.

*We are exposed to business, economic, political, legal and other risks through our significant worldwide operations.*

We have significant operations and manufacturing facilities outside the United States, including in Ireland and the Philippines. Approximately 70% of our revenue is derived from customers in international markets. Although we engage in hedging transactions to reduce our exposure to currency exchange rate fluctuations, there can be no assurance that our competitive position will not be adversely affected by changes in the exchange rate of the United States dollar against other currencies. Potential interest rate increases, as well as high energy costs, could have an adverse impact on industrial and consumer spending patterns and could adversely impact demand for our products. At August 4, 2012, our principal source of liquidity was \$3,765.0 million of cash and cash equivalents and short-term investments, of which approximately \$1,007.3 million was held in the United States and the remaining balance was held outside the United States in various foreign subsidiaries. As we intend to reinvest certain of our foreign earnings indefinitely, this cash held outside the United States is not readily available to meet certain of our cash requirements in the United States. We require a substantial amount of cash in the United States for operating requirements, stock repurchases, cash dividends and acquisitions. If we are unable to address our U.S. cash requirements through operations, through borrowings under our current credit facility, through future debt or equity offerings or from other sources of cash obtained at an acceptable cost, it may be necessary for us to consider repatriation of earnings that are permanently reinvested, and we may be required to pay additional taxes under current tax laws, which could have a material effect on our results of operations and financial condition.

In addition to being exposed to the ongoing economic cycles in the semiconductor industry, we are also subject to the economic, political and legal risks inherent in international operations, including the risks associated with the recent crisis in global credit and financial markets, ongoing uncertainties and political and economic instability in many countries around the world, as well as economic disruption from acts of terrorism and the response to them by the United States and its allies. Other business risks associated with global operations include increased managerial complexities, air transportation disruptions, expropriation, currency controls, currency exchange rate movement, additional costs related to foreign taxes, tariffs and freight rate increases, exposure to different business practices and legal standards, particularly with respect to price protection, competition practices, intellectual property, anti-corruption and environmental compliance, trade and travel restrictions, pandemics, import and export license requirements and restrictions, difficulties in staffing and managing worldwide operations, and accounts receivable collections.

We expect to continue to expand our business and operations in China. Our success in the Chinese markets may be adversely affected by China's continuously evolving laws and regulations, including those relating to taxation, import and export tariffs, currency controls, environmental regulations, indigenous innovation, and intellectual property rights and enforcement of those rights. Enforcement of existing laws or agreements may be inconsistent. In addition, changes in the political environment, governmental policies or U.S.-China relations could result in revisions to laws or regulations or their interpretation and enforcement, exposure of our proprietary intellectual property, increased taxation, restrictions on imports, import duties or currency revaluations, which could have an adverse effect on our business plans and operating results.

*Our operating results are dependent on the performance of independent distributors.*

A significant portion of our sales are through independent distributors that are not under our control. These independent distributors generally represent product lines offered by several companies and thus could reduce their sales efforts applied to our products or they could terminate their representation of us. We generally do not require letters of credit from our distributors and are not protected against accounts receivable default or declarations of bankruptcy by these distributors. Our inability to collect open accounts receivable could adversely affect our operating results. Termination of a significant distributor, whether at our initiative or the distributor's initiative or through consolidation in the distribution industry, could disrupt our current business, and if we are unable to find suitable replacements, our operating results could be adversely affected.

*We are subject to increasingly strict environmental, health and safety (EHS) regulations, which could increase our expenses and affect our operating results.*

Our industry is subject to increasingly strict EHS requirements, particularly those environmental requirements that control and restrict the use, transportation, emission, discharge, storage and disposal of certain chemicals, elements and materials used or produced in the semiconductor manufacturing process. Public attention to environmental concerns continues to increase, and our customers routinely include stringent environmental standards in their contracts with us. Changes in environmental laws or regulations may require us to invest in costly equipment or alter the way our products are made. In addition, we use hazardous and other regulated materials that subject us to risks of strict liability for damages caused by potential or actual releases of such materials. Any failure to control such materials adequately or to comply with statutory or regulatory standards or contractual obligations could result in liability for damages, penalties, and civil and criminal fines, and might damage our reputation, increase our expenses, and adversely affect our operating results.

New climate change laws and regulations could require us to change our manufacturing processes or obtain substitute materials that may cost more or be less available for our manufacturing operations. In addition, new restrictions on emissions of carbon dioxide or other greenhouse gases could result in significant costs for us. The Commonwealth of Massachusetts has adopted greenhouse gas regulations, and the U.S. Congress may pass federal greenhouse gas legislation in the future. The

U.S. Environmental Protection Agency (EPA) has issued greenhouse gas reporting regulations that may apply to certain of our operations. The EPA is developing other climate change-based regulations, as are certain states, that also may increase our expenses and adversely affect our operating results. We expect increased worldwide regulatory activity relating to climate change in the future. Compliance with these laws and regulations has not had a material impact on our capital expenditures, earnings, financial condition or competitive position. There is no assurance that the cost to comply with current or future EHS laws and regulations will not exceed our estimates or adversely affect our financial condition or results of operations. Additionally, any failure by us to comply with applicable EHS requirements or contractual obligations could result in penalties, civil and criminal fines, suspension of or changes to production, legal liability and damage to our reputation.

*If we are unable to generate sufficient cash flow, we may not be able to service our debt obligations, including making payments on our two issuances of \$375.0 million senior unsecured notes or our \$145.0 million term loan facility.*

In fiscal 2009, we issued in a public offering \$375.0 million aggregate principal amount of 5.0% senior unsecured notes due July 1, 2014. In April 2011, we issued in a public offering \$375.0 million aggregate principal amount of 3.0% senior unsecured notes due April 15, 2016. In December 2010, Analog Devices Holdings B.V., a wholly owned subsidiary of ours, entered into a \$145.0 million term loan facility which matures on December 22, 2013. Our ability to make payments of principal and interest on our indebtedness when due depends upon our future performance, which will be subject to general economic conditions, industry cycles and financial, business and other factors affecting our consolidated operations, many of which are beyond our control. If we are unable to generate sufficient cash flow from operations in the future to service our debt, we may be required to, among other things:

- seek additional financing in the debt or equity markets;
- refinance or restructure all or a portion of our indebtedness, including the notes;
- divert funds that would otherwise be invested in our operations;
- sell selected assets; or
- reduce or delay planned capital expenditures or operating expenditures.

Such measures might not be sufficient to enable us to service our debt, including the notes or our term loan facility, which could negatively impact our financial results. In addition, any such financing, refinancing or sale of assets might not be possible on economically favorable terms.

*Restrictions in our revolving credit and term loan facilities and outstanding debt instruments may limit our activities.*

Our current revolving credit and term loan facilities and our 5.0% and 3.0% senior unsecured notes impose, and future debt instruments to which we may become subject may impose, restrictions that limit our ability to engage in activities that could otherwise benefit our company, including to undertake certain transactions, to create certain liens on our assets and to incur certain subsidiary indebtedness. Our ability to comply with these financial restrictions and covenants is dependent on our future performance, which is subject to prevailing economic conditions and other factors, including factors that are beyond our control such as foreign exchange rates, interest rates, changes in technology and changes in the level of competition. In addition, our credit and term loan facilities require us to maintain compliance with specified financial ratios. If we breach any of the covenants under our credit or term loan facilities or the indenture governing our outstanding notes and do not obtain appropriate waivers, then, subject to applicable cure periods, our outstanding indebtedness thereunder could be declared immediately due and payable.

*Our stock price may be volatile.*

The market price of our common stock has been volatile in the past and may be volatile in the future, as it may be significantly affected by the following factors:

- crises in global credit, debt and financial markets;
- actual or anticipated fluctuations in our revenue and operating results;
- changes in financial estimates by securities analysts or our failure to perform in line with those estimates or our published guidance;
- changes in market valuations of other semiconductor companies;
- announcements by us or our competitors of significant new products, technical innovations, material transactions, acquisitions or dispositions, litigation or capital commitments;
- departures of key personnel;
- accused noncompliance with laws, regulations or ethics standards by us or any of our employees, officers or directors; and
- negative media publicity targeting us or our suppliers, customers or competitors.

The stock market has historically experienced volatility, especially within the semiconductor industry, that often has been unrelated to the performance of particular companies. These market fluctuations may cause our stock price to fall regardless of our operating results.

**ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds****Issuer Purchases of Equity Securities**

<b>Period</b>	<b>Total Number of Shares Purchased (a)</b>	<b>Average Price Paid Per Share (b)</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (c)</b>	<b>Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs</b>
May 6, 2012 through June 2, 2012	37,193	\$ 35.83	36,856	\$ 597,780,977
June 3, 2012 through June 30, 2012	80,457	\$ 36.41	80,457	\$ 594,851,645
July 1, 2012 through August 4, 2012	361,232	\$ 36.22	357,896	\$ 581,769,062
Total	478,882	\$ 36.22	475,209	\$ 581,769,062

- (a) Includes 3,673 shares paid to us by employees to satisfy employee tax obligations upon vesting of restricted stock units granted to our employees under our equity compensation plans.
- (b) The average price paid per share of stock repurchased under the stock repurchase program includes the commissions paid to the brokers.
- (c) Shares repurchased pursuant to the stock repurchase program publicly announced on August 12, 2004. In the aggregate, our Board of Directors has authorized us to repurchase \$5 billion of our common stock. Under the repurchase program, we may repurchase outstanding shares of our common stock from time to time in the open market and through privately negotiated transactions. Unless terminated earlier by resolution of our Board of Directors, the repurchase program will expire when we have repurchased all shares authorized for repurchase under the repurchase program.

**ITEM 6. Exhibits**

The exhibits listed in the Exhibit Index immediately preceding the exhibits are filed as part of this Quarterly Report on Form 10-Q and such Exhibit Index is incorporated herein by reference.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

**RESTRICTED STOCK UNIT AGREEMENT  
GRANT OF RESTRICTED STOCK UNIT  
Private & Confidential (Addressee Only)**

{EMPNAME}

We are pleased to advise the Participant that Analog Devices, Inc., a Massachusetts corporation (the "Company"), has granted to the Participant Restricted Stock Units ("RSUs") on the terms and conditions set forth below (the "Award"). This Award reflects the Company's confidence in the Participant's commitment and contributions to the success and continued growth of the Company.

1. Restricted Stock Unit.

This agreement confirms that, subject to the terms and conditions of the Analog Devices, Inc. 2006 Stock Incentive Plan (the "Plan"), the Company has granted to the Participant (the "Participant"), effective on the Date of Grant set forth below, that number of RSUs set forth below:

Date of Grant:            {GRANTDATE}  
Number of RSUs Granted: {RSSHARESGRANTED}

Vesting Schedule:       The RSUs shall vest on the earlier of {GRANTDATE+1} or the date of the Company's next annual meeting of shareholders

Each one (1) RSU shall, if and when it vests in accordance with this Award, automatically convert into one (1) share of common stock, US\$0.16 2/3 par value, of the Company ("Common Stock") issuable as provided below. The RSUs are subject to the vesting provisions set forth in Section 2, the restrictions on transfer set forth in Section 3 and the right of the Company to retain Shares (as defined below) pursuant to Section 7.

2. Vesting and Conversion.

- (a) Subject to the terms of the Plan and this Award, the RSUs shall vest in accordance with the schedule set forth in Section 1. For purposes of this Award, RSUs that have not vested as of any particular time in accordance with this Section 2(a) are referred to as "Unvested RSUs." The shares of Common Stock that are issuable upon the vesting and conversion of the RSUs are referred to in this Award as "Shares." As soon as administratively practicable after the issuance of any Shares upon the vesting and conversion of RSUs, and subject to the terms and conditions set forth herein, the Company shall deliver or cause to be delivered evidence (which may include a book entry by the Company's transfer agent) of the Shares so issued in the name of the Participant to the brokerage firm designated by the Company to maintain the brokerage account established for the Participant. Notwithstanding the foregoing, the Company shall not be obligated to issue Shares to or in the name of the Participant upon the vesting and conversion of any RSUs unless the issuance of such Shares shall comply with all relevant provisions of law and other legal requirements including, without limitation, any applicable securities laws and the requirements of any stock exchange upon which shares of Common Stock may then be listed.
- (b) In the event the Participant ceases to be a Director for any reason or no reason (other than due to death, Disability or otherwise as provided in the Plan or below), then in each such case, all of the Unvested RSUs as of the date of termination shall terminate and be cancelled immediately and automatically and the Participant shall have no further rights with respect to such Unvested RSUs.

- (c) In the event the Participant dies while a Director of the Company, all Unvested RSUs shall vest in full as of the date of the Participant's death.
  - (d) In the event the Participant ceases to be a Director by reason of a Disability (as defined below), the Unvested RSUs as of the date of the Participant cease to be a Director shall vest in full as of such date. For the purpose of this Award, "Disability" means (i) the Participant's inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment that can be expected to result in death or can be expected to last for a continuous period of not less than 12 months, as determined by the Company.
  - (e) If the Participant becomes an employee of the Company and, in connection with such employment, ceases to serve as a Director of the Company, Unvested RSUs shall vest in accordance with the terms hereof until the date that the Participant's employment with the Company is terminated.
  - (f) Notwithstanding anything in the Plan or herein, all Unvested RSUs shall vest in full as of a Change in Control Event (as defined in the Plan).
  - (g) For purposes of this Award, employment with the Company shall include being an employee, consultant or advisor with any direct or indirect parent or subsidiary of the Company, or any successor to the Company or any such parent or subsidiary of the Company.
3. Restrictions on Transfer.
- (a) The Participant shall not sell, assign, transfer, pledge or otherwise encumber any RSUs, either voluntarily or by operation of law.
  - (b) The Company shall not be required (i) to transfer on its books any of the RSUs which have been transferred in violation of any of the provisions set forth herein or (ii) to treat as the owner of such RSUs any transferee to whom such RSUs have been transferred in violation of any of the provisions contained herein.
4. Not a Shareholder. The RSUs represent an unfunded, unsecured promise by the Company to deliver Shares upon vesting and conversion of the RSUs, and until vesting of the RSUs and issuance of the Shares, the Participant shall not have any of the rights of a shareholder with respect to the Shares underlying the RSUs. For the avoidance of doubt, the Participant shall have no right to receive any dividends and shall have no voting rights with respect to the Shares underlying the RSUs for which the record date is on or before the date on which the Shares underlying the RSUs are issued to the Participant.
5. Provisions of the Plan. The RSUs and Shares, including the grant and issuance thereof, are subject to the provisions of the Plan. A copy of the Plan prospectus is available on the Company's Intranet at [www.analog.com/employee](http://www.analog.com/employee) (from Signals home page, click Knowledge Centers, HR, Employee Stock Programs. The related documents can be found in the right-hand column).
6. Consideration. Any Shares that are issued and any cash payment that is delivered, in either case upon settlement of the RSUs pursuant to this Award, will be in consideration of the Participant's service as a member of the Board of Directors of the Company and/or his continued employment with the Company, which consideration is deemed sufficient.

7. Withholding Taxes.

- (a) Regardless of any action the Company takes with respect to any or all income tax (including U.S. federal, state and local taxes and/or non-U.S. taxes), social insurance, payroll tax, payment on account or other tax-related withholding ("Tax-Related Items"), the Participant acknowledges that the ultimate liability for all Tax-Related Items legally due by the Participant is and remains the Participant's responsibility, and that the Company (i) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the RSUs, including the grant of the RSUs, the vesting of the RSUs, the subsequent sale of any Shares acquired pursuant to the RSUs and the receipt of any dividends; and (ii) do not commit to structure the terms of the grant or any aspect of the RSUs to reduce or eliminate the Participant's liability for Tax-Related Items.
- (b) Prior to the delivery of Shares upon the vesting of the RSUs, if any taxing jurisdiction requires withholding of Tax-Related Items, the Company may withhold a sufficient number of whole Shares otherwise issuable upon the vesting of the RSUs that have an aggregate Fair Market Value (as defined under the Plan) sufficient to pay the minimum Tax-Related Items required to be withheld with respect to the Shares. The cash equivalent of the Shares withheld will be used to settle the obligation to withhold the Tax-Related Items (determined by reference to the closing price of the Common Stock on the NASDAQ Global Select Market on the applicable vesting date). No fractional Shares will be withheld or issued pursuant to the grant of the RSUs and the issuance of Shares hereunder. Alternatively, the Company may, in its discretion, withhold any amount necessary to pay the Tax-Related Items from the Participant's salary or other amounts payable to the Participant, with no withholding in Shares. In the event the withholding requirements are not satisfied through the withholding of Shares or through the Participant's salary or other amounts payable to the Participant, no Shares will be issued upon vesting of the RSUs unless and until satisfactory arrangements (as determined by the Compensation Committee of the Board of Directors) have been made by the Participant with respect to the payment of any Tax-Related Items which the Company determines, in its sole discretion, must be withheld or collected with respect to such RSUs. By accepting this grant of RSUs, the Participant expressly consents to the withholding of Shares and/or cash as provided for hereunder. All other Tax-Related Items related to the RSUs and any Shares delivered in payment thereof are the Participant's sole responsibility.

8. Option of Company to Deliver Cash. Notwithstanding any of the other provisions of this Award and except where otherwise prohibited under local law or where cash settlement may present adverse tax consequences to the Participant, at the time the RSUs vest, the Company may elect, in the sole discretion of the Compensation Committee of the Board of Directors, to deliver by wire transfer to the Participant in lieu of Shares an equivalent amount of cash (determined by reference to the closing price of the Common Stock on the NASDAQ Global Select Market on the applicable vesting date). If the Company elects to deliver cash to the Participant, the Company is authorized to retain such amount as is sufficient in the opinion of the Company to satisfy the tax withholding obligations of the Company pursuant to Section 7 herein.

9. Data Privacy. The Company hereby notifies the Participant of the following in relation to the Participant's personal data and the collection, processing and transfer of such data in relation to the grant of the RSUs and the Participant's participation in the Plan, pursuant to applicable personal data protection laws. The collection, processing and transfer of the Participant's personal data is necessary for the Company's administration of the Plan and the Participant's participation in the Plan, and the Participant's denial and/or objection to the collection, processing and transfer of personal data may affect the Participant's ability to participate in the Plan. As such, the Participant voluntarily acknowledges, consents and agrees (where required under applicable law) to the

collection, use, processing and transfer of personal data as described herein.

The Company holds certain personal information about the Participant, including the Participant's name, home address and telephone number, date of birth, social security number or other employee identification number, salary, nationality, job title, any Shares or directorships held in the Company, details of all RSUs or any other entitlement to Shares awarded, canceled, purchased, vested, unvested or outstanding in the Participant's favor, for the purpose of managing and administering the Plan ("Data"). The Data may be provided by the Participant or collected, where lawful, from third parties, and the Company will process the Data for the exclusive purpose of implementing, administering and managing the Participant's participation in the Plan. The data processing will take place through electronic and non-electronic means according to logistics and procedures strictly correlated to the purposes for which the Data is collected and with confidentiality and security provisions as set forth by applicable laws and regulations in the Participant's country of residence. Data processing operations will be performed minimizing the use of personal and identification data when such operations are unnecessary for the processing purposes sought. The Data will be accessible within the Company's organization only by those persons requiring access for purposes of the implementation, administration and operation of the Plan and for the Participant's participation in the Plan.

The Company will transfer Data as necessary for the purpose of implementation, administration and management of the Participant's participation in the Plan, and the Company may further transfer Data to any third parties assisting the Company in the implementation, administration and management of the Plan. These recipients may be located in the European Economic Area, the United States or elsewhere throughout the world. The Participant hereby authorizes (where required under applicable law) the recipients to receive, possess, use, retain and transfer the Data, in electronic or other form, for purposes of implementing, administering and managing the Participant's participation in the Plan, including any requisite transfer of such Data as may be required for the administration of the Plan and/or the subsequent holding of Shares on the Participant's behalf to a broker or other third party with whom the Participant may elect to deposit any Shares acquired pursuant to the Plan.

The Participant may, at any time, exercise the Participant's rights provided under applicable personal data protection laws, which may include the right to (a) obtain confirmation as to the existence of the Data, (b) verify the content, origin and accuracy of the Data, (c) request the integration, update, amendment, deletion, or blockage (for breach of applicable laws) of the Data, and (d) to oppose, for legal reasons, the collection, processing or transfer of the Data which is not necessary or required for the implementation, administration and/or operation of the Plan and the Participant's participation in the Plan. The Participant may seek to exercise these rights by contacting the Participant's local HR manager.

10. Repatriation: Compliance with Laws. The Participant agrees, as a condition of the grant of the RSUs, as applicable, to repatriate all payments attributable to the Shares and/or cash acquired under the Plan (including, but not limited to, dividends and any proceeds derived from the sale of the Shares acquired pursuant to the RSUs) in accordance with all foreign exchange rules and regulations applicable to the Participant. In addition, the Participant also agrees to take any and all actions, and consent to any and all actions taken by the Company and its subsidiaries, as may be required to allow the Company and its subsidiaries to comply with all laws, rules and regulations applicable to the Participant. Finally, the Participant agrees to take any and all actions as may be required to comply with the Participant's personal legal and tax obligations under all laws, rules and regulations applicable to the Participant.

11. Miscellaneous.

- (a) No Rights to Board Service. The grant of the RSUs shall not confer upon the Participant any right to continue to serve on the Board of Directors of the Company or, if applicable, as an employee of the Company or its subsidiaries, nor limit in any way the terms of the Participant's service on the Board of Directors, including for removal therefrom. The vesting of the RSUs pursuant to Section 2 hereof is earned only by satisfaction of the performance conditions, if any, and continuing service on the Board of Directors or as otherwise set forth in Section 2 (not through the act of being elected, hired or engaged or being granted the RSUs hereunder).
- (b) Discretionary Nature. The Participant acknowledges and agrees that the Plan is discretionary in nature and may be amended, cancelled, or terminated by the Company, in its sole discretion, at any time. The grant of the RSUs under the Plan is a one-time benefit and does not create any contractual or other right to receive a grant of RSUs or any other award under the Plan or other benefits in lieu thereof in the future. Future grants, if any, will be at the sole discretion of the Company, including, but not limited to, the form and timing of any grant, the number of Shares subject to the grant, and the vesting provisions. Any amendment, modification or termination of the Plan shall not constitute a change or impairment of the terms and conditions of the Participant's employment with the Company.
- (c) Exclusion from Termination Indemnities and Other Benefits. The Participant's participation in the Plan is voluntary. The value of the RSUs and any other awards granted under the Plan is an extraordinary item of compensation outside the scope of the Participant's service on the Board of Directors of the Company. Any grant under the Plan, including the grant of the RSUs, is not part of normal or expected compensation for purposes of calculating any severance, resignation, redundancy, end of service payments, bonuses, long-service awards, pension, or retirement benefits or similar payments.
- (d) Severability. The invalidity or unenforceability of any provision of this Award shall not affect the validity or enforceability of any other provision of this Award, and each other provision of this Award shall be severable and enforceable to the extent permitted by law.
- (e) Binding Effect. This Award shall be binding upon and inure to the benefit of the Company and the Participant and their respective heirs, executors, administrators, legal representatives, successors and assigns, subject to the restrictions on transfer set forth in Section 3 of this Award.
- (f) Notice. Each notice relating to this Award shall be in writing (which shall include electronic form) and delivered in person, electronically or by first class mail, postage prepaid, to the address as hereinafter provided. Each notice shall be deemed to have been given on the date it is received. Each notice to the Company shall be addressed to it at its offices at Analog Devices, Inc., Three Technology Way, Norwood, Massachusetts, 02062, Attention: Chief Financial Officer. Each notice to the Participant shall be addressed to the Participant at the Participant's last known mailing or email address, as applicable, on the records of the Company.
- (g) Pronouns. Whenever the context may require, any pronouns used in this Award shall include the corresponding masculine, feminine or neuter forms, and the singular form of nouns and pronouns shall include the plural, and vice versa.
- (h) Entire Agreement. This Award and the Plan constitute the entire understanding between the parties, and supersede all prior agreements and understandings, relating to the subject matter of these documents.

- (i) Governing Law. This Award shall be construed, interpreted and enforced in accordance with the internal laws of the Commonwealth of Massachusetts without regard to any applicable conflicts of laws.
- (j) Interpretation. The interpretation and construction of any terms or conditions of this Award or the Plan, or other matters related to the Plan, by the Compensation Committee of the Board of Directors of the Company shall be final and conclusive.
- (k) Participant's Acceptance. The Participant is urged to read this Award carefully and to consult with his or her own legal counsel regarding the terms and consequences of this Award and the legal and binding effect of this Award. By virtue of his or her acceptance of this Award, the Participant is deemed to have accepted and agreed to all of the terms and conditions of this Award and the provisions of the Plan.
- (l) Electronic Delivery. The Company may, in its sole discretion, decide to deliver any documents related to the RSUs or other awards granted to the Participant under the Plan by electronic means. The Participant hereby consents to receive such documents by electronic delivery and agrees to participate in the Plan through an on-line or electronic system established and maintained by the Company or a third party designated by the Company.
- (m) English Language. The Participant acknowledges and agrees that it is the Participant's express intent that this Agreement, the Plan and all other documents, notices and legal proceedings entered into, given or instituted pursuant to the RSUs, be drawn up in English. If the Participant has received this Agreement, the Plan or any other documents related to the RSUs translated into a language other than English, and if the meaning of the translated version is different than the English version, the English version shall control.
- (n) Addendum. Notwithstanding any provisions herein to the contrary, the RSUs shall be subject to any special terms and conditions for the Participant's country of residence (and, if any, country of employment, if different), as may be set forth in an addendum to this Agreement (the "Addendum"). Further, if the Participant transfers the Participant's residence and/or employment to another country reflected in an Addendum, the special terms and conditions for such country will apply to the Participant to the extent the Company determines, in its sole discretion, that the application of such terms and conditions is necessary or advisable in order to comply with local law or to facilitate the administration of the Plan. Any Addendum shall constitute part of this Agreement.
- (o) Additional Requirements. The Company reserves the right to impose other requirements on the RSUs, any Shares acquired pursuant to the RSUs, and the Participant's participation in the Plan, to the extent the Company determines, in its sole discretion, that such other requirements are necessary or advisable in order to comply with local law or to facilitate the administration of the Plan. Such requirements may include (but are not limited to) requiring the Participant to sign any agreements or undertakings that may be necessary to accomplish the foregoing.
- (p) Private Placement. The Company has submitted regulatory filings in the United States in connection with the stock incentive plan under which this Award was made. The Company has not submitted any registration statement, prospectus or other filings with other local securities authorities (unless otherwise required under such local law), and the grant of the Award is not intended to be a public offering of securities in any other jurisdiction or subject to the supervision of other local securities authorities.

- (q) Changes in Capitalization. In the event of any stock split, reverse stock split, stock dividend, recapitalization, combination of shares, reclassification of shares, spin-off or other similar change in capitalization or event, or any non-cash distribution to holders of Common Stock, the number of RSUs, and Shares issuable upon vesting and conversion thereof, shall be appropriately adjusted in such manner as shall be determined by the Compensation Committee of the Board of Directors of the Company.
- (r) Amendment. This Award may be amended or modified only by a written instrument executed by both the Company and the Participant.

**CERTIFICATION**

I, Jerald G. Fishman, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Analog Devices, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
